Cutler, Jr., 2016-01-05 Scholarship shortfalls persist leaving NCAA scholarship student athletes to pay hundreds and sometimes thousands of dollars for additional educational expenses not covered by their current athletic scholarships Meanwhile NCAA campuses continue to generate money from the sale of apparel and other merchandise featuring star athletes In this detailed study Ernest Cutler explores the troubling history of money changing hands with none of it going to student athletes who are for some reason considered amateurs that should not be eligible for payment He also takes a careful look about what such a system says about academic values and educational institutions as well as how the system contributes to infractions by student athletes coaches and athletic administrators This research study is not intended to disrespect the NCAA but it does seek to serve as a tool to change problematic policies that infringe upon the rights of current former and future student athletes Sports, Media, and Society Kevin Hull, 2024-03-26 Whether espoused by sports leagues teams or individual athletes social issues are part of the sporting world fabric The sports media often plays the gatekeeper deciding how messages are presented and to what extent they're covered if at all Sports Media and Society investigates the impact of societal issues in sports and how the media reports those stories Why does the sports media operate in the manner that it does and what's the impact of its decisions on the audience With Sports Media and Society there is now a resource that combines mainstay class discussion points current case studies and theoretical and historical foundations in one comprehensive text The book's 34 chapters are each short and concise a format preferred by instructors covering a wide range of topics and easily digestible for students Part I covers sports media history and the media's role as gatekeeper Chapters explore the history and evolution of various media newspapers magazines radio television and social media and the business of and competition between sports media entities Case studies examine NBC's Olympics coverage and the nimbleness of Sports Illustrated in the digital space Part II showcases television's impact on how fans follow sports Discussions include ABC's Wide World of Sports which exposed viewers to events around the globe ESPN's foray into 24/7 sports coverage and Fox Sports' shocking NFL deal which marked a new era in media rights negotiations and sports broadcasting technologies The intersection of sports and social issues is the focus of part III Numerous issues are addressed punctuated by case studies involving key players and events related to each topic Cases concerning Colin Kaepernick USWNT and coverage of women's sports generally LGBTQ issues and obstacles faced by women working in sports media are highlights while examinations of social identity theory and framing provide context on how people identify with specific groups and how the media influences opinions Athletes and sport entities are constantly in the news not always in a positive
