Re-Imagining Resilient Productive Landscapes Carla Brisotto, Fabiano Lemes de Oliveira, 2022-03-09 This book explores how lessons from past urban planning experiences can inform current debates on urban agriculture Productive landscapes today have been posited as instruments for the positive transformation related to territorial fragility and abandonment promoting social cohesion food security and wider environmental and economic benefits The book will re map the way in which seeming landscape limitations and challenges can be turned into potential innovation and a new lease of urban rural life It does so by drawing on significant past urban agricultural experiences in planning as vectors for new critical reflections relevant to re igniting ideas for future envisioning of urban scenarios in which productive landscapes play fundamental transformative roles The focus is on planning ideas and the roles of key individual planners all of which have designed agricultural strategies for the city at some point in their careers It intends to help us today reimagine urban rural relationships and the transformation of under or mis used urban open spaces peri urban areas fringe conditions and in between spaces Review Procedures and Standards for the Granting of Security Clearances at the Department of Defense United States. Performance Around the World Maria Dakolias, 1999-01-01 World Bank Technical Paper no 430 QUOTE Many countries are undertaking legal and judicial reforms as part of their overall development programs there is increasing recognition that economic and social progress requires consolidation of democracy as well as respect for the rule of law and human rights without these development is not sustainable QUOTE Many developing countries find that their judiciaries are inconsistent in conflict resolution and carry a large backlog of cases thus stifling private sector growth eroding individual and property rights and perhaps even violating human rights Delays affect both the fairness and the efficiency of the system They impede the public's access to the courts which in effect weakens democracies the rule of law and the ability to enforce human rights This paper aims to describe and explain the performance of court systems in a sample of developing and developed countries in order to provide data to those designing or evaluating reforms The study also seeks to show areas in which international comparison of judicial performance can be fruitful suggesting indicators that can be used in such comparisons Finally it endeavors to provide comparisons of performance within individual countries over time

A Study of Socio-economic Approaches to Mine Action United Nations Development Programme, Geneva International Centre for Humanitarian Demining, 2001 After armed conflicts initial post war development is often inhibited by the presence of landmines The United Nations helps to address this problem with a developmental and humanitarian approach called mine action Giving increasing scrutiny of the cost effectiveness of such programmes the purpose of this study is to identify social and economic analytical tools by which mine action programmes can be more effectively planned managed and evaluated The chapters include assessing the impact of mine contamination socio economic analysis of mine action setting priorities monitoring and evaluation data management tools
