Self-Selected Essays Augustine Birrell, 2015-06-25 Excerpt from Self Selected Essays A Second Series A few years ago my friend Mr John Buchan was at the pains to make a selection from my Essays for the Nelson Series I am sure he made as good a job of it as possible At all events no complaints have reached my ears though to be sure in such a matter as a selection the world is very easily content Not so the author who has been thus treated He when he turns the pages of the truncated thing though fully alive to the fact else were he a fool an unbearable hypothesis that selection involves omission and that consequently omissions there must be is yet uneasy as he reads Everywhere discrimination is discerned as against himself discrimination with its consequent rejection nor can he take pleasure in the thought of his trifles light as air being weighed in the critical scales one against another About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Bodily Self Jose Luis Bermudez, 2024-02-06 Essays on the role of the body in self consciousness showing that full fledged linguistic self consciousness is built on a rich foundation of primitive nonconceptual self consciousness These essays explore how the rich and sophisticated forms of self consciousness with which we are most familiar as philosophers psychologists and as ordinary reflective individuals depend on a complex underpinning that has been largely invisible to students of the self and self consciousness Jos Luis Berm dez extending the insights of his groundbreaking 1998 book The Paradox of Self Consciousness argues that full fledged linguistic self consciousness is built on a rich foundation of primitive nonconceptual self consciousness and that these more primitive forms of self consciousness persist in ways that frame self conscious thought They extend throughout the animal kingdom and some are present in newborn human infants Berm dez makes the case that these primitive forms of self awareness can indeed be described as forms of self consciousness arguing that they share certain structural and epistemological features with full fledged linguistic self consciousness He offers accounts of certain important classes of states of nonconceptual content including the self specifying dimension of visual perception and the content of bodily awareness considering how they represent the self And he explores the general role of nonconceptual self consciousness in our cognitive and affective lives examining in several essays the relation between

nonconceptual awareness of our bodies and what has been called our sense of ownership for our own bodies
