Philosophy That Works Old Truth To Informative Power:

Philosophy That Works David M. Wolf MA, David M. Wolf, 2003-10 Are statements of fact true or only more or less useful This question is of vital importance because it cuts to the core of the nature of truth it leads to decisive choices in modern philosophy Beneath the concept truth serious problems defy and resist philosophic analysis revealing and resolving them is the early focus of PHILOSOPHY THAT WORKS The way things are people mix up what they mean by truth and get bound up in fallacies that condemn human knowledge to seemingly pointless relativism But an adequate understanding of truth transforms philosophy and individual understanding improves thinking itself and strengthens education organizations and society Showing how so much progress is possible is the business end of this book the payoff of its thoughtful investigations into truth and knowledge PHILOSOPHY THAT WORKS is an intellectual adventure an impassioned story about navigating philosophy from its backwaters down a great river of advancing civilization The philosopher disillusioned with academic philosophies begins an investigation into the many meanings of truth He makes a lasting discovery that changes what philosophy itself can achieve and what it can mean He faces daunting tasks but reconfigures philosophy confusion concerning truth resolves into clear understanding Who should join the adventure Not only philosophers This is a book for everyone who likes to think It has power narrative conviction and a soulful center that resonates through its pages From the Introduction Albert Einstein once mentioned that humanity cannot solve its vexing problems at the same level of thought that produced the crisis A higher level of thinking will require a philosophic transformation That's what Philosophy That Works is all about Despite postmodern skepticism a simplistic true and false outlook on reality remains the commonplace of a civilization this is the level that has produced the crisis This book describes a basic change in the dominant paradigm of the age It shows that a colossal mistake underlies the commonsense outlook an error that has prevented consensus about what is real and therefore what life can mean it penetrates the problem to its heart **Dr. William Smith's Dictionary of the Bible**

William Smith, 1870 Nach Foucault Ludwig Pongratz, Michael Wimmer, Wolfgang Nieke, Jan Masschelein, 2013-03-13 Auch zwei Jahrzehnte nach seinem Tod hat Michel Foucault nichts von seiner inspirierenden und irritierenden Wirkung verloren Zwar tat sich die Pädagogik zunächst schwer mit der Rezeption seiner Diskurs- und machtanalytischen Studien Inzwischen aber ist an die Stelle anfänglicher Abwehr eine wachsende Resonanz in Erziehungs- und Bildungsphilosophischen Untersuchungen getreten Foucaults eigener Intention folgend verlieren sich die hier versammelten Beiträge nicht in interpretativen Spitzfindigkeiten bei der richtigen Foucault-Verständnis sondern knüpfen an
