Philosophical Problems Today:

Philosophical Problems Today / Problèmes Philosophiques d'Aujourd'hui Guttorm Fløistad, 2013-11-11 Philosophical Problems Today is a new series of publications from the Institut International de Philosophie It follows upon Contemporary Philosophy a series presenting philosophical research in various world cultures and so far published in seven volumes Vols 1 4 on European Philosophy Vol 5 on African Philosophy Vol 6 on Medieval Philosophy Part 1 and 2 and Vol 7 on Asian Philosophy appeared in 1993 A further volume dealing with the Philosophy of South America is still in preparation to appear in 1994 95 The new series is based on a different concept Each volume consists as a rule of five articles The articles are extensive discussions of topical philosophical problems and offer always some original contributions The articles in each volume represent different philosophical traditions and cultures and may thus contribute to crosscultural communication Volume 1 in the new series contains articles on standard problems in European and American philosophy Quine writes on truth and discusses various difficulties connected with the clear definition of the correspondence theory of truth What are true and false are propositions Part of the difficulty stems from the ambiguity of proposition Some think that the word refers to certain types of sentences others that it rather refers to the meaning of such sentences Another major difficulty is due to the fact that the world being unique may be variously grasped *Philosophical Problems of Modern Biology* Jan Kamaryt, 1965 *Solving, Resolving, and Dissolving Philosophical Problems* P. M. S. Hacker, 2025-01-06 Equips readers with the intellectual tools required to tackle perennial philosophical problems Solving Resolving and Dissolving Philosophical Problems is addressed to all who are interested in philosophical questions It presupposes little philosophical knowledge only curiosity and an open mind It demands a willingness to learn not doctrine but method and the courage to suspend judgement and to challenge received ideas Advocating the method of the 3 C s Connective Contrastive and Contextual Analysis the book demonstrates the method by putting it to work examining fifteen salient philosophical questions that concern all thinking people It is organized thematically into four parts Part I introduces questions in philosophy of psychology the nature of the mind the mind body problem the nature of consciousness and its demystification knowledge of other minds Part II deals with epistemological questions knowledge belief memory imagination thinking dreaming Part III deals with value the roots of morality the nature of good and evil the need for a secular conception of the soul happiness The application of the method in the essays produces striking original and unanticipated results that will give readers pause The final part of the book articulates in detail the methodology of the 3 C s exemplified by the fifteen essays and defends it against objections Solving Resolving and Dissolving Philosophical Problems On the Methodology of Connective Contrastive and Contextual Analysis is an excellent textbook for undergraduate students in introductory philosophy courses alongside more advanced scholars as well as an invaluable resource for educated general readers with an interest in philosophical methodology Philosophical Problems Today, 1994 **Philosophy and the Historical Perspective** Marcel van Ackeren, 2018-07-26 Some pursue

philosophy via its history while others focus on current debates without reference to the past But a growing group of philosophers believe historical perspective can contribute to current debates Philosophy and the Historical Perspective explores the importance of this perspective and investigates the very nature of philosophy **Living Issues in Philosophy** Harold Hopper Titus,1986 **Philosophical Thinking in Romania Today** ,1979 *A Metaphysics for the Future* Robert Allinson,2024-11-01 This title was first published in 2001 This work is intended to serve not only as an expression of a new idea of a philosophy but as an apologia for philosophy as a legitimate and independent discipline in its own right It argues that in the 20th century truth has not been abandoned but merely modified The text proposes a return to truth and suggests that it is only after apprehending the truths of consciousness that the philosopher s mirror may become a kaleidoscope through which reality may be contemplated First order truth lies in the realm of discovery and discovery takes place only within the moment of subjective re enactment Philosophical Discussions Chauncey Wright,Charles Eliot Norton,1877
