Helena Petrovna Blavatsky, 2017-09-30 Theosophy is the very synthesis of Philosophy in its widest abstract sense as in its special qualifications. It is quintessence of the highest transcendental philosophy. Theosophy is no national property but only the universal code of science and the most transcendental ethics that was ever known; that it lies at the root of every moral philosophy and religion. Occultism is one of the Sciences of Theosophy or the Wisdom Religion but by no means the whole of Theosophy.
