#### Philosophy In A Time Of Terror Dialogues With Jurgen Habermas And Jacques Derrida:

Philosophy in a Time of Terror Jürgen Habermas, Jacques Derrida, Giovanna Borradori, 2003 The idea for Philosophy in a Time of Terror was born hours after the attacks on 9 11 and was realized just weeks later when Giovanna Borradori sat down with I rgen Habermas and Jacques Derrida in New York City in separate interviews to evaluate the significance of the most destructive terrorist act ever perpetrated This book marks an unprecedented encounter between two of the most influential thinkers of our age as here for the first time Habermas and Derrida overcome their mutual antagonism and agree to appear side by side As the two philosophers disassemble and reassemble what we think we know about terrorism they break from the familiar social and political rhetoric increasingly polarized between good and evil In this process we watch two of the greatest intellects of the century at work Philosophy in a time of terror Giovanna Borradori, 2004 Psvchoanalytic Theory Bert Olivier, 2009 The essays brought together in this volume are written from the dual perspectives of philosophy and psychoanalytic theory Sometimes more weight is given to the one perspective than to the other and vice versa but always with the conviction that the rational argumentative and hermeneutic interpretive approach of philosophy requires the sobering influence of psychoanalytic theory s conception of the human being as a split subject prone to the laws of the unconscious no less than to those of reason Topics range from the question concerning the relation between discourse evil and the agency of the subject to that of the non relativistic ethical positioning of the psychotherapist from the problem of overcoming relativism by way of a poststructuralist understanding of language to that of a cogent Derridean philosophical response to global terrorism and from a Lacanian understanding of narrative identity of human knowledge as paranoiac and of trauma literature to a Kristevan perspective on nature as abject in the light of the degradation of ecosystems globally
