Philosophy And Politics In Later Stuart Scotland

Jean-Christophe Mayer

Philosophy And Politics In Later Stuart Scotland:

Philosophy and Politics in Later Stuart Scotland David Allan, 2000 During the later 16th and 17th centuries Scotland's elite divided by the Reformation and afflicted by political upheaval found consolation and sometimes inspiration in the teachings of ancient philosophy The neo Stoicism with which they especially engaged was a versatile and cosmopolitan body of thought which had developed in response to chronic instability across Europe Influenced by its ideas about public and private life which were discussed in poetry and drama as well as in letters meditations and extended scholarly treatises they learned how to follow Stoic example to prepare themselves for political duties to confront the turbulence of their own world and even to cultivate a justifiable retirement in the face of its irrational and uncontrollable furies Examining figures as diverse as Buchanan Drummond of Hawthornden Hume of Godscroft Gordon of Gordonstoun the Marquis of Montrose Alexander Ross Robert Leighton and Sir George Mackenzie this study traces the attempt made to educate Scots to transpose Roman morality onto early modern society providing at the same time an insight into the mental outlook and cultural horizons of the later Stuart elite

Renaissance Syntax and Subjectivity John C. Leeds, 2017-03-02 The relationship between Latin and the Scots vernacular in the chronicle literature of 16th century Scotland provides the topic for this study John Leeds here shows how the disposition of grammatical subjects in the radically dissimilar syntactic systems of humanist neo Latin and Scots conditions the way in which the subject i.e. the human individual and its actions are conceived in the writing of history In doing so he extends the boundaries of existing critical literature on early modern subjectivity to include the subject of grammar analyzing its incorporation into narrative sentences and illuminating the ideological contents of different systems for its deployment Though focused on the chronicles of Renaissance Scotland the argument can in principle be applied to the entire range of Latin vernacular relations during the early modern period While examining the intellectual culture of early modernity Leeds also takes aim at every stage of his argument at the semiotic and social constructionist orthodoxies that dominate the humanities today Against the notion that human subjects are discursive constructs he argues for the subordination of discourse to realities both material and immaterial that are external to language As part of this argument he proposes a view of neo Latin humanism as a resistance to the onset of modernity arguing that Latin prose provides options at once syntactic ideological and ontological that vernacular culture has to its considerable detriment foreclosed In sum Leeds advocates a renewed and theoretically informed commitment to the humanism that the humanities themselves have been at such pains during the last scholarly generation to depreciate

Scotland Re-formed, 1488-1587 Jane Dawson, 2007-10-26 From the death of James III to the execution of Mary Queen of Scots Jane Dawson tells story of Scotland from the perspective of its regions and of individual Scots as well as incorporating the view from the royal court Scotland Re formed shows how the country was re formed as the relationship between church and crown changed with these two institutions converging merging and diverging thereby permanently altering the nature of Scottish governance Society was also transformed

especially by the feuars new landholders who became the backbone of rural Scotland The Reformation Crisis of 1559 60 brought the establishment of a Protestant Kirk an institution influencing the lives of Scots for many centuries and a diplomatic revolution that discarded the auld alliance and locked Scotland's future into the British Isles Although the disappearance of the pre Reformation church left a patronage deficit with disastrous effects for Scottish music and art new forms of cultural expression arose that

Monarchy, the Court, and the Provincial Elite in Early Modern Europe Peter Edwards, 2024-02-26 A team of experts view the relationship between rulers and their leading subjects across Europe and further afield If God derived authority legitimized a monarch's rule it did not necessarily prevent opposition to perceived arbitrary government as subjects put forward the counter concept of consensual rule The provincial elite might serve the ruler as advisors and officers at court but they also possessed an independent source of power based on their extensive estates While monarchs wanted to perpetuate a system in which they could watch over members of the regional elite at court and keep them busy they sought to make use of them as local and provincial administrators that is as long as they remained loyal a fraught balancing act Contributors include Hlder Carvalho Peter Edwards Jemma Field Cailean Gallagher Pedro Jos Herades Ruiz Graeme S Millen Vita Mala inskien Tibor Monostori Steve Murdoch David Potter Peter R Roberts Irene Maria Vicente Martin and Matthias Wong

Die Moralphilosophie von Thomas Reid zwischen Tradition und Innovation August Benz, 2000

David Hume Mark G. Spencer, 2015-06-26 This volume provides a new and nuanced appreciation of David Hume as a historian Gone for good are the days when one can offhandedly assert as R G Collingwood once did that Hume deserted philosophical studies in favour of historical ones History and philosophy are commensurate in Hume's thought and works from the beginning to the end Only by recognizing this can we begin to make sense of Hume's canon as a whole and see clearly his many contributions to fields we now recognize as the distinct disciplines of history philosophy political science economics literature religious studies and much else besides Casting their individual beams of light on various nooks and crannies of Hume's historical thought and writing the book's contributors illuminate the whole in a way that would not be possible from the perspective of a single authored study Aside from the editor the contributors are David Allan M A Box Timothy M Costelloe Roger L Emerson Jennifer Herdt Philip Hicks Douglas Long Claudia M Schmidt Michael Silverthorne Jeffrey M Suderman Mark R M Towsey and F L van Holthoon

The Struggle for the Succession in Late Elizabethan England Jean-Christophe Mayer, 2004

A Dialogue on the Law of Kingship Among the Scots George Buchanan, Roger A. Mason, Martin S. Smith, 2004 George Buchanan 1506 82 was one of the most distinguished humanists of the Northern European Renaissance Hailed by his contemporaries as the greatest Latin poet of his age he is chiefly remembered today as a radical political theorist whose *Dialogus* first published in Edinburgh in 1579 justified the deposition of Mary Queen of Scots in 1567 on the basis of a theory of popular sovereignty which vested in the people the right to resist depose and kill tyrannical monarchs Dedicated to his pupil James VI whose violent reaction against his tutor's ideas led him

to develop his own views on the divine right of kings Buchanan's work nevertheless proved immensely influential both in Britain and on the Continent making a notable contribution to the debates over the nature and location of sovereignty which would finally bear fruit in the writings of John Locke This new edition featuring facing page Latin text and English translation is accompanied by extensive notes and commentary on Buchanan's classical and contemporary sources and a detailed introduction that examines the development of Buchanan's political thought the context in which the *Dialogus* was written and published and an extended analysis of the text itself

Scottish Literature in English and Scots Douglas Gifford, Sarah Dunnigan, Alan MacGillivray, Beth Dickson, 2002 This substantial new volume is a stimulating yet in depth introduction to Scottish literature in English and Scots From medieval to modern the entire range of literature is introduced examined and explored Aimed primarily at those with an interest in Scottish literature this guide also responds to the need for students and teachers to have detailed discussions of individual authors and texts The volume looks at Scottish literature in six period sections Early Scottish Literature Eighteenth Century The Age of Scott Victorian and Edwardian The Twentieth Century Scottish Literary Renaissance and Scottish Literature since 1945 Each section begins with an overview of the period followed by several chapters examining exemplary authors and texts Each section finishes with an extensive discussion including suggestions as to how to further explore the rich and often neglected hinterlands of Scottish writing Extensive reading lists identify primary texts of the period as well as details of a wide range of additional authors Opening up neglected areas of study as well as responding to the burgeoning interest in novelists modern poets and dramatists this book serves as an invaluable guide to Scottish Literature

Proceedings of the Society of Antiquaries of Scotland Society of Antiquaries of Scotland, 2002 Includes List of members

The Architecture of Scottish Government Miles Glendinning, 2004 This extensively illustrated book provides a historical overview of Scottish buildings of government and assembly from the Middle Ages to the present day setting Scotland's new parliament in the broader context of the nation's architectural and social history

David Hume of Godscroft's The History of the House of Angus David Hume, 2005 David Hume of Godscroft a leading intellect of Jacobean Scotland recounts the relations manoeuvrings and ideologies of one of the most important Scottish families of the Middle Ages and the Renaissance The history recounts the House of Angus from the first earl in the fourteenth century to the death of the Godscroft's patron the eighth earl in 1588 Reid provides detailed notes on the individuals and events in Godscroft's text The notes effectively unravel an extraordinary range of tangled kin relations political manoeuvring and ideological commitment

The Scottish Parliament Under Charles II, 1660-1685 Gillian H. MacIntosh, 2007 This book examines the political events of Scotland under Charles II to provide the first detailed and accessible account of the Restoration of the Scottish parliament

David Hume of Godscroft's The History of the House of Douglas David Hume, 1996

The Advancement of Learning in Stuart Scotland, 1679-89 HUGH. OUSTON, 2024-08-06 A study of Scottish thinkers and writers in their political and cultural context The advancement of

learning was the term used by late seventeenth century Scots for intellectual enquiry of all kinds Encouraged by Stuart patronage and echoing a Royalist ideology of continuity and order following the chaos of the Civil War the Virtuosi Scottish writers and thinkers sought to define Scotland's identity They undertook structured empirical enquiry into Scottish natural history and geography human history and antiquities law and society while the legal and medical professions developed their status and purpose through institutions such as the Royal College of Physicians and the Advocates Library They both complemented and eclipsed the changing intellectual life of the Church and Universities This book considers the work of leading authors such as Sir George Mackenzie Sir Robert Sibbald and Lord Stair alongside the many other voices engaged in learned research and debate examining their shared or contrasting philosophy and methods It shows how a distinctively Scottish take on the Scientific Revolution was enhanced by close contacts with the Royal Society and English thinkers and a conscious membership of the European Republic of Letters

The Culture of Controversy Alasdair Raffe, 2012

Illuminating the development and character of Scottish Protestantism The Culture of Controversy proposes new ways of understanding religion and politics in early modern Scotland The Culture of Controversy investigates arguments about religion in Scotland from the Restoration to the death of Queen Anne and outlines a new model for thinking about collective disagreement in seventeenth and eighteenth century societies Rejecting teleological concepts of the public sphere the book instead analyses religious debates in terms of a distinctively early modern culture of controversy This culture was less rational and less urbanised than the public sphere Traditional means of communication such as preaching and manuscript circulation were more important than newspapers and coffeehouses As well as verbal forms of discourse controversial culture was characterised by actions rituals and gestures People from all social ranks and all regions of Scotland were involved in religious arguments but popular participation remained of questionable legitimacy Through its detailed and innovative examination of the arguments raging between and within Scotland's main religious groups the Presbyterians and Episcopalians over such issues as Church government state oaths and nonconformity The Culture of Controversy reveals hitherto unexamined debates about religious enthusiasm worship and clerical hypocrisy It also illustrates the changing nature of the fault line between the Presbyterians and Episcopalians and contextualises the emerging issues of religious toleration and articulate irreligion Illuminating the development and character of Scottish Protestantism The Culture of Controversy proposes new ways of understanding religion and politics in late seventeenth and early eighteenth century Scotland and will be particularly valuable to all those with an interest in early modern British history Alasdair Raffe is Lecturer in History at Northumbria University Newcastle upon Tyne

Early Modern Natural Law Theories T.

Hochstrasser, P. Schröder, 2013-06-29 The study of natural law theories in the early Enlightenment continues to be one of the most fruitful areas of research in early modern intellectual history In recent years there have been substantial reassessments of Grotius Pufendorf Thomasius 1 and the whole university based tradition associated with the Frühling The appeal of

the discourse of natural jurisprudence to groups and individuals operating outside conventional educational and political structures such as the Huguenot diaspora has also been highlighted Moreover the contextual understanding of the work of unambiguously major philosophers such as Hobbes and Kant and its reception has been greatly enhanced by studies that have sought to view them as 3 participants in rather than bystanders alongside the discourse of natural law Thus thinkers previously not considered central to this discourse have been incorporated into it afresh However there is no danger of natural jurisprudence going unchallenged as the meta discourse of political theory in this period for recently new studies of the role of libertine and jansenist thought in shaping the priorities of the early Republic of Letters have challenged its position among the intellectual 4 achievements of the social and political theory of the early Enlightenment This volume therefore offers a timely opportunity to reassess both the coherence of the concept of early Enlightenment and the specific contribution of natural law theories to it *Scottish Studies Review* ,2000 **George Buchanan** Philip Ford,Roger P. H. Green,Elwira Buszewicz,2009 Educated in Scotland and France George Buchanan became one of the most influential writers of 16th century Europe Writing in the lingua franca of his time Classical Latin he was to be hailed internationally as easily the prince of poets Here fifteen scholars from many countries analyse his writings his creative use of ancient texts for contemporary purposes and his impact on the culture of Scotland and of Europe not least in the spheres of tragedy and music

Renaissance Decorative Painting in Scotland Michael Bath,2003 This volume explores the rich inheritance of decorative painting found in Scottish buildings of the 16th and 17th centuries of which over 100 examples survive or are recorded The book explores the inspiration and meaning behind these painted walls and ceilings which show striking images of religious classical emblematic or grotesque subjects The result of more than ten years research this highly illustrated publication contains chapters on the different types of painting followed by an exhaustive catalogue of all known examples
