Rivera-Servera, Geraldo L. Cadava, Claire F. Fox, 2022-07-12 Latina o x places exist as both tangible physical phenomena and gatherings created and maintained by creative cultural practices In this collection an interdisciplinary group of contributors critically examines the many ways that varied Latina o x communities cohere through cultural expression Authors consider how our embodied experiences of place together with our histories and knowledge inform our imagination and reimagination of our surroundings in acts of placemaking This placemaking often considers environmental sustainability as it helps to sustain communities in the face of xenophobia and racism through cultural expression ranging from festivals to zines to sanctuary movements It emerges not only in specific locations but as movement within and between sites not only as part of a built environment but also as an aesthetic practice and not only because of efforts by cultural political and institutional leaders but through mass media and countless human interactions A rare and crucial perspective on Latina o x people in the Midwest Building Sustainable Worlds reveals how expressive culture contributes to and sustains a sense of place in an uncertain era **Mindmasters** Sandra Matz, 2025-01-07 A fascinating exploration of how algorithms penetrate the most intimate aspects of our psychology from the pioneering expert on psychological targeting There are more pieces of digital data than there are stars in the universe This data helps us monitor our planet decipher our genetic code and take a deep dive into our psychology As algorithms become

increasingly adept at accessing the human mind they also become more and more powerful at controlling it enticing us to buy a certain product or vote for a certain political candidate Some of us say this technological trend is no big deal Others consider it one of the greatest threats to humanity But what if the truth is more nuanced and mind bending than that In *Mindmasters* Columbia Business School professor Sandra Matz reveals in fascinating detail how big data offers insights into the most intimate aspects of our psyches and how these insights empower an external influence over the choices we make This can be creepy manipulative and downright harmful with scandals like that of British consulting firm Cambridge Analytica being merely the tip of the iceberg Yet big data also holds enormous potential to help us live healthier happier lives for example by improving our mental health encouraging better financial decisions or enabling us to break out of our echo chambers With passion and clear eyed precision Matz shows us how to manage psychological targeting and redesign the data game *Mindmasters* is a riveting look at what our digital footprints reveal about us how they re being used for good and for ill and how we can gain power over the data that defines us
