Florence D. Hudson, 2022-05-30. The second in the Women Securing the Future with TIPPSS series, this book provides insight and expert advice from seventeen women leaders in technology, healthcare, and policy to address the challenges of Trust, Identity, Privacy, Protection, Safety, and Security (TIPPSS) for connected healthcare and the growing Internet of Medical Things (IoMT) ecosystem. The ten chapters in this book delve into trust, security, and privacy risks in connected healthcare for patients, medical devices, personal and clinical data, healthcare providers, and institutions, and provide practical approaches to manage and protect the data, devices, and humans. Cybersecurity technology and legal experts discuss risks from data and device hacks to ransomware and propose approaches to address the challenges, including new frameworks for architecting and evaluating medical device and connected hospital cybersecurity. We all need to be aware of the TIPPSS challenges in connected healthcare, and we call upon engineers, device manufacturers, system developers, and healthcare providers to ensure trust and manage the risk. Featuring contributions from prominent female experts and role models in technology, cybersecurity, engineering, computer science, data science, business, healthcare, accessibility, research, law, privacy, and policy, this book sets the stage to improve security and safety in our increasingly connected world.
