The Complete Guide to College Transfer Jaime Smith, MA, MEd, CEP, 2025-08-26 The Insider's Guide That Takes the Confusion Out of Transferring Over a million students embark on the journey of transferring colleges each year from community colleges to four year schools between universities or back from a hiatus to complete their degrees Transfer students deserve the same level of care and guidance that college bound high school seniors receive yet few resources exist to guide them through the complex process of transferring Jaime Smith fills the gap with this comprehensive research backed toolkit to help readers find their perfect fit transfer friendly college navigate the transfer and financial aid application procedures maximize transfer credits including those from alternative sources happily adjust to life at their new school academically and socially *The Complete Guide to College Transfer* offers a helping hand during a momentous time instilling in future graduates the confidence they need to accomplish their goals *Ranking Obsession Culture* Sienna

Vance, AI, 2025-04-07 *Ranking Obsession Culture* examines the pervasive influence of rankings on legal education impacting student choices and institutional behavior It explores how the pursuit of higher rankings affects where students choose to attend law school and how law schools allocate resources The book uniquely combines law economics psychology and sociology to provide a multifaceted understanding of this phenomenon The book delves into the psychological impact of rankings on prospective students revealing how perceptions of prestige can drive decisions and analyzes how law schools strategically adapt admissions practices to improve their ranking position It also addresses the potential distortions caused by a singular focus on metrics such as a diminished emphasis on teaching quality The text unfolds by first introducing the history of ranking systems then examining the psychological factors driving student fixation and finally exploring the ethical implications of ranking driven behavior The book offers a critical perspective on the role of rankings in shaping decisions within the legal education market By connecting to broader themes in higher education policy organizational behavior and sociology it provides insights relevant to other professional fields This analysis challenges assumptions made by students faculty and administrators advocating for a more holistic understanding of institutional value and the need for comprehensive assessment methods beyond just rankings Cursus honorum: pathways to rank and power in the roman republic Francisco

Pina Polo, 2025-03-24 This volume addresses a crucial issue for the political culture of the Roman Republic competition among individuals and families of the social elite This rivalry came to head at the annual elections of new magistrates every year a number of candidates ran for office and whereas some obtained sufficient votes from the people others were defeated The political career of a Roman citizen therefore took the shape of a hierarchical ladder *cursus honorum* whose rungs corresponded to the age at which one or other magistracy was attained The book deals with the position of the *cursus honorum* in Republican history reflects on the way scholarship has constructed its political and social significance for the political culture of the period and discusses questions relating to how Roman citizens pursued different political careers The

outcome is a groundbreaking and essential contribution to a better understanding of the Roman Republic

Promises Betrayed Bob Herbert,2025-04-16 The award winning New York Times op ed columnist probes the widening gap between American ideals and American realities and urges us to do something about it Bob Herbert is the conscience of the op ed page of The New York Times and his work is characterized by a strong moral vision and a deep understanding of the human costs of political decisions From partisan politics to popular culture from race relations to criminal justice few journalists bring to life so movingly the stories of ordinary people caught between the American dream and American realities Whether it is the inherent injustice of the death penalty or the demagoguery of the war on terrorism Herbert questions whether we are truly upholding our ideals or merely giving them lip service In *Promises Betrayed* Herbert makes

the case that in recent years America has too often failed to live up to its creed of fairness and justice in the lives of working people racial minorities children and others not among the powerful He introduces us to real people facing real problems and trying to maintain their dignity along the way and he blows the whistle on imperious public officials who think the rules of common decency do not apply to them Herbert s tenacious reporting has resulted in the overturning of many wrongful convictions and the release of dozens of innocent people from prison In these and so many other ways Herbert keeps us all honest and lives up to the journalist s credo to comfort the afflicted and afflict the comfortable
