Provoked by the increasing support of private actors to military operations Gloria Westermeyer aims to investigate whether this exemption is still valid Based on the conduct of Intelligence Surveillance and Reconnaissance services in the German ISAF Mission the author examines the impact of private actors on the governance of today s military affairs What is the relative power of private security actors vis vis the state Which factors determine if to what extent and why private actors support the military Under what circumstances and how may security functions be privatized without undermining the state s interest
