Fry,Andrew Edgar,2022-03-03 The COVID 19 pandemic has had an impact on every aspect of our social cultural and commercial lives including the world of sport This book examines the ethical and philosophical dimensions of the intersection of COVID 19 and sport The book goes beyond simple description of the impact of the pandemic on sport to offer normative judgments on how the sporting world responded to challenges posed by COVID 19 as well as philosophical speculation as to how COVID 19 will change our understanding and appreciation of sport in the long term It examines the considerations that either influenced or arguably should have influenced decisions to continue or to resume the playing of organized sport in the midst of a pandemic As a part of this analysis a spotlight is shone on how sport intersected with political issues surrounding COVID 19 It also explores the configuration and meaning of sport in the COVID 19 era touching on themes such as the nature of sport and its integrity and sport s relationship to technology Other themes include the changed nature of spectatorship suffering in sport during pandemic times and the impact of COVID 19 on the Olympic and Paralympic Games A final chapter looks ahead and asks what sport might look like in a post COVID world This is fascinating reading for anybody with an interest in the ethics and philosophy of sport the sociology of sport event studies politics or public health **Children's Technology Review** ,2005
