Throughput Economics Eli Schragenheim, Henry Camp, Rocco Surace, 2019-06-11 Schragenheim Camp and Surace three leaders of TOC community are tackling one of value destroyers of corporations the misuse and abuse of traditional cost accounting This book develops a practical methodology for better decision making by looking at the impact of certain types of decisions on a company's bottom line This well defined methodology allows mid managers higher level managers and financial staff to create real value by concentrating on what truly matters Boaz Ronen Professor Emeritus Coller School of Management Tel Aviv University Tel Aviv Israel Throughput Economics is a must read for entrepreneurs and managers who want to make their organizations more and more antifragile Andrea Zattoni CEO of Antifragility Italy Management accounting is a dry topic Throughput Economics is not managers can learn a lot they can apply to their company from it Rudolf Burkhart Business Development Director Vistem GmbH Germany Throughput Economics challenges the current thinking of how to evaluate cost risks and rewards of any deal or any other new market opportunity being considered especially the practice of calculating cost per unit Instead this book offers a process that directly answers the critical question If we accept the proposed decision will the performance of the organization improve The process involves the intuition of the key people in the organization together with the relevant data to come up with the best available information from which to form a reasonable range of net profit when the considered decision is added on top of all the other activities undertaken by the organization The process is explained and demonstrated using a variety of cases where the organization faces a new non trivial idea along with a detailed explanation of how it should work including software support that provides very quick response to many what if suggestions This book offers a new and well defined process applicable to every organization that considers both financial impacts and capacity limitations and also includes the impact of uncertainty by providing the range of reasonable results rather than one number which is always proven wrong in the end Overall the book provides a holistic method for simplified decision making in seemingly complex or shifting environments using a constraints mindset to facilitate companies realization for the first time their true potential

*Northern Ireland Policing Board best value performance plan for 2006-07* Great Britain: National Audit Office, 2007-03-28 The Police Northern Ireland Act 2000 requires the Northern Ireland Policing Board to make arrangements to secure continuous improvement in the way in which their functions and those of the Chief Constable of the Police Service of Northern Ireland PSNI are exercised with particular focus on economy efficiency and effectiveness This is the fourth NAO report on the audit of the current best value performance plan The Policing Board and PSNI have made significant progress in implementing the recommendations of past inspections by NAO and HM Inspector of Constabulary The proposed performance indicators and standards for 2006 07 are reasonable but could be improved Some previous indicators have been dropped and an explanation would help transparency The methodology used to select the Best Value Reviews is thorough but again the decision making process is not clear The

report also recommends improvements in the reporting of performance against standards particularly where standards have not been achieved      *Optimizing Distributor Profitability* F.
