Leadership Matters W. Joseph King, Brian C. Mitchell, 2022-01-04 Leadership matters more than ever in this turbulent moment in American higher education During these unprecedented times glaring internal inefficiencies communication breakdowns and an overriding sense of cultural inertia on many campuses are too often set against a backdrop of changing consumer preferences high sticker prices declining demand massive tuition discounting aging infrastructure technological and pedagogical alternatives and political pressure Strategic leadership in such a complex environment needs to be exercised in nuanced ways that differ from those embraced by corporate cultures In *Leadership Matters* W Joseph King and Brian C Mitchell argue that the success of higher education institutions depends on strategic leaders who can utilize the strengths of their institutions and leaders to balance internal pressures shifting demographics global education needs and workforce preparation demands beyond the college gates Drawing on their extensive experience the authors guide senior administration trustees and presidents on how to lead during immense financial demographic and social challenges King and Mitchell believe that to survive colleges must be well run flexible effective and forward thinking The authors begin with a fundamental premise that colleges and universities must evolve and adapt by modernizing their practices monetizing their assets focusing on core educational strategies and linking explicitly to the modern world Discussing a broad range of leadership positions including presidents provosts and board chairs *Leadership Matters* touches on strategic planning management and operations stakeholder relations campus and community accreditation and athletic conferences and much more The authors offer an optimistic assessment based upon frank and stark conclusions about what colleges must do and must not do to remain relevant in the coming decades
