The World Health Statistics 2016 focuses on the health and health-related Sustainable Development Goals (SDGs) and associated targets. This report also seeks to demonstrate the critical linkages between health and other SDGs by including indicators of selected health determinants and risk factors in other SDG targets. The series is produced by the WHO Department of Information, Evidence, and Research of the Health Systems and Innovation Cluster. As in previous years, World Health Statistics 2016 has been compiled using publications and databases produced and maintained by WHO technical programs and regional offices.
