Take Control of Apple Media Apps Kirk McElhearn, 2025-10-30 Discover Apple's Music TV Podcasts and Books apps
Version 1.1 updated October 30, 2025 Are you bewildered with the apps that replaced iTunes on your Apple devices? Befuddled by Apple Music? Confused about whether or how to sync your media to the cloud? Wondering how to view movies and TV shows on each of your devices? Wishing for a way to organize your podcasts? In this book, Kirk McElhearn explains not only how Apple's media apps work but also how normal people can make the Music TV Podcasts and Books apps do just what they want. Back in 2019, Apple replaced iTunes for Mac, iOS, and iPadOS with three apps: Music, TV, and Podcasts, with audiobooks handled by the Books app. *Take Control of Apple Media Apps* is your guide to this post-iTunes world. Covers macOS 15 Sequoia, iOS 18, and iPadOS 18 or later, including macOS 26 Tahoe, iOS 26, and iPadOS 26, plus Apple Watch, Apple TV, and HomePod. Expanding on his earlier title *Take Control of macOS Media Apps*, Kirk McElhearn shows you how to manage your music, videos, podcasts, and audiobooks on all your Apple devices. Whether you just want to play your media or you want to go deeper with special features like Apple Music Genius, Shuffle, Playing Next, and iTunes Match, this comprehensive guide has the answers you need. Kirk also looks at various ways of bringing audio and video into Apple's media apps, tagging music and videos so you can find them more easily, later creating playlists, sharing your library over a home network, and accessing your media libraries on your iPhone, iPad, Apple Watch, Apple TV, or HomePod. Here's just a taste of what the book covers:

Music Play Music Learn the basics of playing audio and even music videos in the Music app. You'll also learn about making quick playlists with Genius and Playing Next, the best ways to search for the music you want to hear, how to stream music to other devices in your home, and how to view lyrics while tunes play. **Stream Music** Use Apple Music, a paid service, to listen to any of 100 million tracks. Or listen to live broadcasts from Apple Music Radio, including Apple Music 1, Apple Music Hits, Apple Music Country, and other live radio stations. **View Your Music** Learn how to view your music library and work with contextual menus in the Music app. **Organize Your Music** Make a simple playlist of romantic songs, workout songs, or whatever theme you like. You'll learn how to create smart playlists that, for example, comprise only your 5-star faves or only tunes you haven't heard recently, and how to transfer playlists to your Apple Watch. You'll also find help with operational issues like eliminating duplicates from your music library. **Store Your Music Library in the Cloud** What are the pros and cons of using the Sync Library setting to store your music in the cloud? How do Music and iTunes Match figure out whether to upload your music when that setting is enabled? How can I make sure I have all the media I want on each of my Apple devices? You'll get answers to these questions and more. **Tag Your Music** Tags are bits of information, also known as metadata, that can describe your media. Learn which tags to bother changing, the best ways to add lyrics and album art, how to rate songs with stars, favorites, or both, and what other types of metadata you can use. **Meet Apple Music Classical** Apple Music Classical is a special app for iPhone that helps lovers of classical music enjoy their favorite composers, performers, and pieces.

without the limitations of the standard Music app TV Podcasts and Books View Movies and TV Shows Use the TV app to watch videos including those purchased rented or streamed from Apple and those you add yourself Listen to and Watch Podcasts You'll be sampling and subscribing to podcasts in no time with Kirk's advice plus you'll pick a method of syncing podcast episodes to your iPhone or iPad and even learn about creating your own podcast station Listen to Audiobooks Discover how to download and play audiobooks in the Books app and how to manage your audiobook library Note This book does not cover using ebooks in Books All Media Apps Buy or Rent Media from Apple You can buy music TV shows movies books and audiobooks directly from Apple and rent movies from within the various media apps Find tips on shopping for media and get advice on sharing your purchases with family members and among your various Apple devices Manage and Share Media Files Whether you want to casually share a playlist from your laptop when visiting a friend or you want to make all your media available on all your home's computers you'll find out how Media Sharing and Home Sharing make sharing possible You'll also learn how to manage massive media libraries and store media files on external drives Put It on Your Wrist Enjoy your favorite music podcasts and audiobooks using your Apple Watch or on a Big Screen Use your Apple TV not only for TV shows and movies but also for music and work with a shared library Take Control of iCloud, 9th Edition Joe Kissell, 2025-05-15 Understand iCloud's capabilities and limitations and put its key features to good use Version 9.2.1 updated May 15 2025 Apple's iCloud service is highly useful but it can also create headaches for the average user In this book Joe Kissell explains how to avoid frustrations and make iCloud work for you across all your devices iCloud is a simple idea in theory access to all your data on all your devices via the cloud that can become complicated when put into practice Instead of wasting time fiddling with iCloud when there are many other more important things to be done with the information it contains learn how to minimize frustrations with Take Control of iCloud Ninth Edition Whether you want a quick tip or a deep dive into the inner workings of iCloud you'll find what you need in this best selling book by Apple expert Joe Kissell Start by learning what iCloud can do how it differs from other cloud services and how best to set it up on Macs iOS and iPadOS devices Apple TVs and Windows PCs Then move on to finding out the key aspects and hidden gotchas of iCloud's core features including iCloud Apple's paid membership tiers with extra features Photo features iCloud Photos iCloud Photo Sharing and iCloud Shared Photo Library Family Sharing iTunes Match and iCloud Music Library iCloud Drive Mail and Mail Drop Contacts Calendars Reminders and Notes iCloud Keychain the iCloud website Location features Find My Device Find My Item Find My People and the Find My app Two factor authentication Activation lock Backing up and recovering data Managing your privacy and security including the use of Advanced Data Protection This edition has been updated to cover macOS 15 Sequoia iOS 18 iPadOS 18 and recent changes to the iCloud website It also continues to cover macOS 10.15 Catalina macOS 11 Big Sur macOS 12 Monterey macOS 13 Ventura macOS 15 Sonoma and iOS 17 iPadOS 17 but drops coverage of earlier operating system versions **macOS Tahoe For Dummies** Guy Hart-Davis, 2025-11-18 Get
