## **Costco This Month On Sale:**

Management with Online Study Tools 12 Months Danny Samson, Timothy Donnet, Richard L. Daft, 2017-10-25 Samson Daft Donnet's Management is a robust foundation text providing a balance of broad theoretical content with an engaging easy to understand writing style. It covers the four key management functions: planning, organising, leading, and controlling, conveying to students the elements of a manager's working day. Along with current management theory and practice, the authors integrate coverage of innovation, entrepreneurship, agile workplaces, social media, and new technology throughout. This sixth edition features a new author on the team and contains updates to content based on recent research. Real-life local and international examples showcase the ongoing changes in the management world. Focusing on a skills approach, they bring concepts to life for students, supporting motivation, confidence, and mastery. Each part concludes with a contemporary continuing case study focusing on car company Toyota as it faces managerial challenges and opportunities in the region.

Authenticity Mark Toft, Jay Sunny, Rich Taylor, 2020-01-07 Brands are alienating customers by telling the wrong story and championing a false purpose. Your business can avoid the same fate: attract loyal customers and out-narrate the competition by embracing authenticity. Equal parts provocation and exhortation, the insights of Authenticity apply to business, marketing, and life in general. Too many companies depend on marketing tactics that don't match the needs and concerns of their customers or embrace messaging and causes that don't connect. Authenticity is an anti-gimmick business book. It prescribes clear strategies that enable companies to communicate in a more genuine, emotional way. Authors Mark Toft, Jay Sunny, and Rich Taylor provide a series of approaches to help embrace and communicate the purpose of your brand with effectiveness. Whether you're a business executive who wants to be more persuasive or an advertising professional looking to grow your brand, this book combines the authors' successful experiences at top agencies into practical advice that can work for anyone in any business. Readers will learn the importance of purpose and conflict in marketing activities, how to approach advertising with clarity and passion, and how to plan content while avoiding the false allure of aspirational advertising and insincere corporate social responsibility. Inauthentic messaging can often spell failure for a business, but the company that tells a genuine, compelling story to its clients is the one that succeeds.
