Playing God Human Genetic Engineering And The Rationalization Of Public Bioethical Debate:

Playing God? John H. Evans, 2002-02 Technology evolves at a dazzling speed in the field of genetic engineering The public hasn't had much say in advancements in human genetics This asks why and explores social forces leading to thinning out of public debate over genetic engineering *Righting Health Policy* D. Robert MacDougall, 2022-02-23 In *Righting Health Policy* D. Robert MacDougall argues that bioethics needs but does not have adequate tools for justifying law and policy Bioethics tools are mostly theories about what we owe each other But justifying laws and policies requires more at a minimum it requires tools for explaining the legitimacy of actions intended to control or influence others It consequently requires political rather than moral philosophy After showing how bioethicists have consistently failed to use tools suitable for achieving their political aims MacDougall develops an interpretation of Kant's political philosophy On this account the legitimacy of health laws does not derive from the morality of the behaviors they require but derives instead from their role in securing our equal freedom from each other MacDougall uses this Kantian account to show the importance of political philosophy for bioethics First he shows how evaluating kidney markets in terms of the legitimacy of prohibiting sales rather than the morality of selling kidneys reverses the widely accepted view that Kantian philosophy supports legally prohibiting markets Second MacDougall argues that an account of political authority is necessary for settling longstanding bioethics debates about the legal and even moral standards that should govern informed consent **Autonomie Der Vernunft?** Riccardo Dottori, 2009 This volume contains the Proceedings of the V Meeting Italian American Philosophy on the Theme Autonomy of Reason that took place in Rome from the 16th to the 19th October 2007 Reason that is purely autonomous in self legislating is completely empty and impotent or incapable of self determination Self determination exists only in that realm of the spirit that is not simply the realm of ends but a historical society based on reciprocal recognition that is established through law and finally freely self determined only through acting in a state that has as its last end the achievement of freedom *The Basics of Bioethics* Robert M. Veatch, 2016-05-23 The third edition of *The Basics of Bioethics* continues to provide a balanced and systematic ethical framework to help students analyze a wide range of controversial topics in medicine and consider ethical systems from various religious and secular traditions *The Basics of Bioethics* covers the Principlist approach and identifies principles that are believed to make behavior morally right or wrong It showcases alternative ethical approaches to health care decision making by presenting Hippocratic ethics as only one among many alternative ethical approaches to health care decision making *The Basics of Bioethics* offers case studies diagrams and other learning aids for an accessible presentation Plus it contains an all encompassing ethics chart that shows the major questions in ethics and all of the major answers to these questions *Patents on Life* Thomas C. Berg, Roman Chelij, Simon Ravenscroft, 2020 A unique collection of legal religious ethical and political perspectives on debates surrounding biotechnology patents or patents on life Demokratie und Religion Mirjam Weiberg, Ulrich Kothe, 2024-06-19 Sollen

view that germline modification should be categorically opposed Contributors Lisa Sowle Cahill Nigel M de S Cameron Ronald Cole Turner Amy Michelle DeBaets Celia Deane Drummond Elliot Dorff H Tristram Engelhardt Jr Thomas A Shannon James J Walter Ronald Cole Turner is H Parker Sharp Professor of Theology and Ethics at Pittsburgh Theological Seminary He is the author of *The New Genesis Theology and the Genetic Revolution* and the coauthor of *Pastoral Genetics Theology and Care at the Beginning of Life* Descriptive content provided by Syndetics a Bowker service **Journal of the Royal Society, Interface** ,2009
