Haedicke, 2021-12-06 This book argues that the performance based work in the featured case studies contributes to the construction of food democracy where the public takes back decision making in shaping the food system It explores how contemporary artists translate scientific research about local and global agricultural issues into life stories that inform and engage their audiences and in so doing transform passive food consumers into proactive food citizens The pairing of performing and farmscapes complex webs of farmlands and storylines enables artists to use embodied practices to encourage audiences to imagine a just and sustainable agri food system and to collaborate on making it a reality The book arranges the case studies on a trajectory that moves from projects that foreground knowledge acquisition to ones that emphasize social engagement by creating conversations and coalitions between farming and nonfarming communities to a final one that pairs protest art and political activism to achieve legally binding changes in the agricultural landscape **Learning Through Play in the Primary School** Louise Paatsch, Siobhan Casey, Amity Green, Karen Stagnitti, 2023-09-08 Drawing on research to inform practice this book is written for teachers and school leaders looking for guidance on how to successfully implement a play based curriculum in the early years of primary
