Pobladoras Indigenas The State Conflic:

Pobladoras, Indígenas, and the State Patricia Richards, 2004 This critical analysis of the role of the state diversity of women's movements and the social and political position of indigenous peoples of Latin America provides an illuminating discussion of the ways in which the state defines women's interest and constructs women's citizenship The Government of Chronic Poverty Sam Hickey, 2013-10-31 What are the underlying causes of chronic poverty Can development beyond neoliberalism offer the strategies required to challenge such persistent forms of poverty particularly through efforts to promote citizenship amongst poor people Drawing on case study evidence from Africa Latin America and South Asia the contributions critically examine different attempts to govern chronic poverty via the promotion of particular forms and notions of citizenship with a specific focus on the role of community based approaches social policy and social movements Poverty is seen here as deriving from underlying patterns of uneven development involving processes of capitalism and state formation that foster inequality generating mechanisms and particularly disadvantaged social categories Sceptics tend to deride the emphasis under current inclusive forms of Liberalism on tackling poverty through the promotion of citizenship as inevitably depoliticising and disempowering for poor people and our cases do suggest that citizenship based strategies rarely alter the underlying basis of poverty However our evidence also offers some support to those optimists who suggest that progressive moves towards poverty reduction and citizenship formation have become more rather than less likely at the current juncture The promotion of citizenship emerges here as a significant but incomplete effort to challenge poverty that persists over time This book was published as a special issue of the Journal of Development Studies Surviving Dictatorship Jacqueline Adams, 2012 Written as a book for undergraduate students as well as scholars *Surviving Dictatorship* is a work of visual sociology and oral history and a case study that communicates the lived experience of poverty repression and resistance in an authoritarian society Pinochet's Chile It focuses on shantytown women examining how they join groups to cope with exacerbated impoverishment and targeted repression and how this leads them into very varied forms of resistance aimed at self protection community building and mounting an offensive Drawing on a visual database of shantytown photographs art posters flyers and bulletins as well as on interviews photo elicitation and archival research the book is an example of how multiple methods might be successfully employed to examine dictatorship from the perspective of some of the least powerful members of society It is ideal for courses in social inequalities poverty race class gender political sociology global studies urban studies women's studies human rights oral history and qualitative methods

Criminalization of Women Michele Eggers-Barison, 2025-10-21 Until 2017 Chile's abortion laws remained among the most draconian and restrictive in the world The dozens of interviews that Michele Eggers Barison conducted between 2011 and 2014 reveal how the criminalization of abortion and the construction of women as criminals went hand in hand and both shaped and sustained structural cultural and direct forms of violence against women Eggers Barison uncovers the narratives

of economically disadvantaged Indigenous and immigrant women who broke the Chilean law by terminating a pregnancy Their stories reveal how laws and policies that regulate and control women s reproductive lives also construct women as criminals As Eggers Barison shows systems of inequality legitimize and sustain harmful attitudes and practices while creating concrete expressions of discrimination and other forms of violence against women Their experience with abortion remains hidden within spaces of illegality and only becomes visible due to health or legal consequences Yet despite the obstacles women used individual and collective forms of group action to resist anti abortion laws Timely and vivid Criminalization of Women shows how abortion s illegality inscribes itself on a woman s body and reality

The United States and Mexico at War Donald Shaw Frazier,1998 The war between these two nations from 1846 to 1848 radically altered the course of U S and Mexican history

Indian Given María Josefina Saldaña-Portillo,2016-03-31 In Indian Given Mar a Josefina Salda a Portillo addresses current racialized violence and resistance in Mexico and the United States with a genealogy that reaches back to the sixteenth century Salda a Portillo formulates the central place of indigenous peoples in the construction of national spaces and racialized notions of citizenship showing for instance how Chicanos as in the U S Mexico borderlands might affirm or reject their indigenous background based on their location In this and other ways she demonstrates how the legacies of colonial Spain s and Britain s differing approaches to encountering indigenous peoples continue to shape perceptions of the natural racial and cultural landscapes of the United States and Mexico Drawing on a mix of archival historical literary and legal texts Salda a Portillo shows how los indios Indians provided the condition of possibility for the emergence of Mexico and the United States
