Playing God Genetic Determinism And Human Freedom:

Playing God? Ted Peters, 2014-04-04 Since the original publication of *Playing God* in 1996 three developments in genetic technology have moved to the center of the public conversation about the ethics of human bioengineering Cloning the completion of the human genome project and most recently the controversy over stem cell research have all sparked lively debates among religious thinkers and the makers of public policy In this updated edition Ted Peters illuminates the key issues in these debates and continues to make deft connections between our questions about God and our efforts to manage technological innovations with wisdom

Playing God? Ted Peters, 2003 Since the original publication of *Playing God* in 1996 three developments in genetic technology have moved to the center of the public conversation about the ethics of human bioengineering Cloning the completion of the human genome project and most recently the controversy over stem cell research have all sparked lively debates among religious thinkers and the makers of public policy In this updated edition Ted Peters illuminates the key issues in these debates and continues to make deft connections between our questions about God and our efforts to manage technological innovations with wisdom

Unprecedented Choices Audrey R. Chapman, 1999-01-01 We face unprecedented choices in genetics for which traditional ethics provides little direct guidance What role can the religious community play in addressing the ethical and theological issues that even scientists now acknowledge as urgent cover

Risiko und Vertrauen - Risk and Trust Heike Springhart, Günter Thomas, 2018-01-01 Die Komplementärbegriffe Risiko und Vertrauen sind dazu geeignet biblisch theologische systematisch theologische ethische und sozialtheoretische Perspektiven in ein produktives Gespräch zu bringen Die Beiträge dieses Bandes nehmen die Funktionen dieses Gesprächs auf und entfalten innovative Impulse für Theologie und Kirchenleitung für Recht Konomie und Zivilgesellschaft sowie für den Diskurs mit den Naturwissenschaften und die Ethik Probleme der theologischen Anthropologie kommen dabei ebenso zur Sprache wie das ökonomische Risikomanagement Risiko und Vertrauen im kirchenleitenden Handeln und das Problem des Rechtspopulismus Der Band ist Michael Welker zum 70. Geburtstag gewidmet und vereint Beiträge von Autorinnen und Autoren aus Deutschland den USA Großbritannien Ungarn den Niederlanden und Südafrika

Risk and Trust Risk and Trust are complementary terms that can help shape a constructive conversation between biblical theological ethical and social theoretical perspectives Contributions of this volume enter this conversation by unfolding impulses for theology and the church for law economics and the civil society as well as for the sciences and ethics Topics include theological anthropology trust and risk in economy and the political and theological challenges due to populism This book is dedicated to Michael Welker for the occasion of his 70th birthday It consists of contributions by authors from Germany USA Great Britain the Netherlands and South Africa

Stem Cell Research and Cloning Mary Byrne, Gareth Jones, 2025-12-31 In August 2004 the government in Britain approved the granting of licences to research groups who wished to research and develop the cloning of human embryos for therapeutic purposes The main focus of such research is the attainment of embryonic stem

cells and the development of therapies from such cells Already some of this research is reported to be happening in South Korea While they were initially discussed as separate issues in ethical and theological debates they are now closely intertwined The first group in England to receive a licence predicts that they will be successful within the next few years This adds an intensity to our need to understand the dimensions of this science and its impact on our life as well as our desire to put a meaning to these developments

Genetics and Christian Ethics Celia Deane-Drummond, 2006 In the immediate future we are likely to witness significant developments in human genetic science It is therefore of critical importance that Christian ethics engages with the genetics debate since it affects not just the way we perceive ourselves and the natural world but also has wider implications for our society This book considers ethical issues arising out of specific practices in human genetics including genetic screening gene patenting gene therapy genetic counselling as well as feminist concerns Genetics and Christian Ethics argues for a particular theo ethical approach that derives from a modified version of virtue ethics drawing particularly on a Thomistic understanding of the virtues especially prudence or practical wisdom and justice The book demonstrates that a theological voice is highly relevant to contested ethical debates about genetics

Religion and the Technological Future Calvin Mercer, Tracy J. Trothen, 2021-02-22 We live in an age of rapid technological advancement Never before has humankind wielded so much power over our own biology Biohacking the attempt at human enhancement of physical cognitive affective moral and spiritual traits has become a global phenomenon This textbook introduces religious and ethical implications of biohacking artificial intelligence and other technological changes offering perspectives from monotheistic and karmic religions and applied ethics These technological breakthroughs are transforming our societies and ourselves fundamentally via genetic modification tissue engineering artificial intelligence robotics the merging of computer technology with human biology extended reality brain stimulation and nanotechnology The book also considers the extreme possibilities of mind uploading cryonics and superintelligence Chapters explore some of the political economic sociological and psychological dimensions of these advances with bibliographies for further study and questions for discussion The technological future is here and it is up to us to decide its moral and religious shape
