Playing With Fire One Woman's Remarkable Odyssey:

Playing with Fire Tova Mordechai, Fayge Silverman, 1991-01-01 **Sitting Still** Jan Bidwell, 2015-07-07 Many people feel an urgency to speak up for the changes they want to see in their world. Most of these activists wouldn't immediately connect their efforts with meditation. Some social activists may want to learn how to meditate but don't know how to start to simply sit still. Author Jan Bidwell has worked for change for forty years. As a daily meditator, she knows the power of meditation to strengthen a person to work as a political and social activist. In thirty years of teaching meditation, she knows the powerful impact meditation can have for people facing hard realities. Through concrete examples, Bidwell shows how the political activist can strengthen and empower their mission by developing a regular practice of sitting still. **To Play with Fire** Tova Mordechai, 2020 **The Literary Imagination of Ultra-Orthodox Jewish Women** Alyse Fisher Roller, 1999 The ultra-Orthodox sector of Jewish culture possesses its own body of creative English writing, a prose genre which is impelled and shaped by women. Contemporary scholars and writers have brought ultra-Orthodox Jewish women to our attention. However, critical writing about this community has consistently misrepresented or misanalyzed it. This study attempts to correct the outsider's bias prevalent in academic research by letting the insiders' voices that is the writings of ultra-Orthodox Jewish women speak for themselves. Through the women's heretofore little-known literature, we can get an unmediated view of this secluded yet vibrant writing community, a glimpse into how traditional women in a postmodern world negotiate feminist consciousness. Writers are analyzed in the specific fields of personal narrative, anthology, Holocaust testimonial, self-help literature, and fiction. A bibliography and index are included. Scientist Alex Lustig has created a tiny yet very destructive problem: a microscopic black hole that he accidentally dropped into Earth's core. Now racing to keep it from consuming the planet, he begins to suspect something even stranger is going on. Something linked to civilization's expanding information web. And with the planet overpopulated and neglect taking its toll on the environment, there are those who demand a harsh solution: that Mother Earth would be better off without humanity at all.
