Oxford Studies in Ancient Philosophy XXXIII David Sedley, 2007-11-08 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy. The articles may be of substantial length and include critical notices of major books. OSAP is now published twice yearly in both hardback and paperback. This volume covers a wide chronological range of ancient philosophy from the Presocratics Heraclitus and Anaxagoras to Galen and Aspasius in the second century AD. At the core of the volume are five articles on Aristotle. The serial Oxford Studies in Ancient Philosophy OSAP is fairly regarded as the leading venue for publication in ancient philosophy. It is where one looks to find the state of the art. That the serial which presents itself more as an anthology than as a journal has traditionally allowed space for lengthier studies has tended only to add to its prestige: it is as if OSAP thus declares that since it allows as much space as the merits of the subject require, it can be more entirely devoted to the best and most serious scholarship.
