Pliny A Selection Of His Letters:

The Women of Pliny's Letters Jo-Ann Shelton, 2013 The large collection of letters by Pliny the Younger includes a number of women among its addressees and Pliny also gives us plentiful information about many women of his acquaintance This book brings together this material to build up a portrait of a peer group of women in their social setting Christian Letters from the Apostle Paul to Late Antiquity Bronwen Neil, Pauline Allen, 2015-02-19 The first multi authored study of New Testament and late antique letter collections crossing the traditional divide between these disciplines Antique Letter Collections Cristiana Sogno, Bradley K. Storin, Edward J. Watts, 2016-12-06 Bringing together an international team of historians classicists and scholars of religion this volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity ca 300 600 c e Each chapter addresses a major collection of Greek or Latin literary letters introducing the social and textual histories of each collection and examining its assembly publication and transmission Contributions also reveal how collections operated as discrete literary genres with their own conventions and self presentational agendas This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth fifth and sixth centuries **Selected letters of M. The Living Age ,1886 Latin Literature John William Mackail, 1895 The poetic forms on the other hand used by Virgil were so much more on the main line of tendency that he stands among a large number of others some of whom might have had a high reputation but for his overwhelming superiority Of the other essays made in this period in bucolic poetry we know too little to speak with any confidence But both didactic poetry and the little epic were largely cultivated and the greater epic itself was not without followers The extant poems of the Culex and Ciris have already been noted as showing with what skill and grace unknown poets almost if not absolutely contemporary with Virgil could use the slighter epic forms
