The Routledge Handbook of Religion and Secrecy Hugh B. Urban, Paul Christopher Johnson, 2022-03-29 Secrecy is a central and integral component of all religious traditions Not limited simply to religious groups that engage in clandestine activities such as hidden rites of initiation or terrorism secrecy is inherent in the very fabric of religion itself Its importance has perhaps never been more acutely relevant than in our own historical moment In the wake of 9 11 and other acts of religious violence we see the rise of invasive national security states that target religious minorities and pose profound challenges to the ideals of privacy and religious freedom accompanied by the resistance by many communities to such efforts As such questions of secrecy privacy surveillance and security are among the most central and contested issues of twenty first century religious life The Routledge Handbook of Religion and Secrecy is the definitive reference source for the key topics problems and debates in this crucial field and is the first collection of its kind Comprising twenty nine chapters by a team of international contributors the Handbook is divided into five parts Configurations of Religious Secrecy Conceptual and Comparative Frameworks Secrecy as Religious Practice Secrecy and the Politics of the Present Secrecy and Social Resistance Secrecy Terrorism and Surveillance This cutting edge volume discusses secrecy in relation to major categories of religious experience and individual religious practices while also examining the transformations of secrecy in the modern period including the rise of fraternal orders the ongoing wars on terror the rise of far right white supremacist groups increasing concerns over religious freedom and privacy the role of the internet in the spread and surveillance of such groups and the resistance to surveillance by many indigenous and diasporic communities The Routledge Handbook of Religion and Secrecy is essential reading for students and researchers in religious studies comparative religion new religious movements and religion and politics It will be equally central to debates in the related

disciplines of sociology anthropology political science security studies and cultural studies *Paradise Reconsidered in Gnostic Mythmaking* Tuomas Rasimus, 2009-10-31 This book offers a new understanding of Sethianism and the origins of Gnosticism by examining the mythology in and social reality behind a group of texts to which certain leaders of the early church occasionally attached the label Ophite In the unique Ophite mythology which rewrites the Genesis paradise story and is attested for example in Irenaeus *Adversus haereses* 1 30 The Apocryphon of John and On the Origin of the World the snake's advice to eat of the tree of knowledge is considered positive the creator and his angels are turned into demonic beasts and the true Godhead is presented as an androgynous heavenly projection of Adam and Eve It is argued that Hans Martin Schenke's influential model of the Sethian system only reveals part of a larger whole to which the Ophite material belongs as an important and organic component

The Spirit in Romans 8 Marcin Kowalski, 2023-12-04 Kowalski addresses the Pauline understanding of the Spirit in Romans 8 as compared to the Stoic idea of *pneuma* The author first analyzes the Stoic views on *pneuma* perceived in a variety of life giving cognitive ethical unifying reproductive and inspiring functions The aforementioned features are taken as a starting point for the comparison with Paul to which however the third element is added the Jewish texts of the Second Temple period These include the Old Testament but also The Book of Enoch The Book of Jubilees Qumran The Testaments of the Twelve Patriarchs The Psalms of Solomon Philo of Alexandria Flavius Josephus LAB Joseph and Aseneth 4 Book of Ezra and 2 Book of Baruch Such a rich comparative material contributes to the novelty of the book and enables the reader to discover both the similarities and differences between Paul Greco Roman and Jewish authors The study analyzes Romans 8 in its rhetorical context and brings to light the novelty of the Pauline view of the Spirit The apostle portrays it in its primary cognitive ethical and communitarian function of making the believers similar to Christ and inculcating in them the Lord's mindset and attitudes Paul presents the Spirit as dwelling within a person similarly to God inhabiting the Jerusalem temple and as the mediator of the resurrected life In the original Pauline take the Spirit enables a close union between God and human beings in which the latter keep their freedom and distinctive personal traits

Plotinus: Enneads II Plotinus, 1966 PLOTINUS A D 204 5 270 possibly of Roman descent but certainly a Greek in education and environment was the first and greatest of Neoplatonic philosophers Practically nothing is known of his early life but at the age of 28 he came to Alexandria and studied philosophy with Ammonius Saccas for 11 years Wishing to learn the philosophy of the Persians and Indians he joined the expedition of Gordian III against the Persians in 243 not without subsequent danger Aged 40 he came to Rome and taught philosophy there till shortly before his death In 253 he began to write and continued to do so till the last year of his life His writings were edited by his disciple Porphyry who published them many years after his master's death in six sets of nine treatises each the *Enneads* He regarded Plato as his master and his own philosophy is a profoundly original development of the Platonism of the first two centuries of the Christian era and the closely related thought of the Neopythagoreans with some influences from Aristotle and his followers and the Stoics whose

writings he knew well but used critically There is no real trace of Oriental influence on his thought and he was passionately opposed to Gnosticism He is a unique combination of mystic and Hellenic rationalist He was deeply respected by many members of the Roman aristocracy and a personal friend of the Emperor Gallienus and his wife He devoted much of his time to the care of orphan children to whom he had been appointed guardian But before his death his circle of friends had broken up and he died alone except for his faithful friend and doctor Eustochius His thought dominated later Greek philosophy and influenced both Christians and Moslems and is still alive today because of its union of rationality and intense religious experience

African Church Fathers - Ancient and Modern Hans S. A. Engdahl, 2021-01-26 This critical and close reading of two African theologians Origen 185 254 and Mbiti 1931 2019 focuses on the following areas philosophy African philosophy and religion and Platonic cosmology ecclesiology and eschatology a parallel presentation of these three themes leads to a fourth theme that of the resurrection where it is argued that there exists a consensus and a convergence between the two This reading also highlights two convictions that partly have caused strong criticism Mbiti has suggested that African philosophy and religion have a conception of time of their own Origen that all and everything is gradually moving towards an apokatastasis at which point all will be saved Yet the contention is that even more important to both Mbiti and Origen is the resurrection of Jesus Christ In order to establish the impact of the resurrection on their lives as Christians and as theologians a contrast reading has been undertaken i e texts are identified which underline the need to forge a link between the resurrection and the earthly ministry of Jesus These texts also underwrite the conviction of Mbiti as well as Origen of the resurrection as something which must be lived in church and society corporately as well as in personal devotion The fact of resurrection creates a new mode of life

A Symphony of Distances Christopher M. Hadley, Christopher M. Hadley, SJ, 2022-03-11 The two fold task of *A Symphony of Distances* is to provide an overview of Hans Urs von Balthasar's use of distance imagery with regard to personal distinctions in the Holy Trinity and to offer a critical analysis of him as a modern Catholic theologian A metaphor of distance integrates all of Balthasar's theological thought as a primary cipher for the many symbols through which he reads the Christian theological tradition in a trinitarian and eschatological mode The book follows a chronological four stage development of Balthasar's trinitarianism through the lens of this distance metaphor as it occurs across representative texts The critical analysis employs the conceit of a symphony of four musical movements that correspond to four varieties of theological distance These distances show certain correspondences of God's creation and redemption of the world marked by the first two distances with the relations of the divine persons to each other in the economy of salvation and in the eternal Trinity itself marked by the third and fourth distances Listening to the four movements of Balthasar's theological distances enables his readers to hear the themes of all four movements in the ascending order of richness complexity and inclusivity over the long development of his thought This fundamentally positive approach of *A Symphony of Distances* allows for a thorough critique of the internal consistency of Balthasar's applied method

of the controversial use of gendered trinitarian notions in his speculations on divine pathos and of his adequacy to the tasks of modern theology The final judgment is that Balthasar's theology of distance can be accepted with reservations as a positive element of his contribution to contemporary trinitarian theology The book can thus serve as a critical reference for readers who find Balthasar's notion of trinitarian distance and indeed his trinitarianism as a whole to be compelling confusing or frustrating
