Tomlinson,2018-11-07 It always was The Dream The Hasselblad 500c Never mind that it was impractical for a photographer without a studio or that it cost a bundle or that the odds against ever owning one were big There it was a monolith above all other cameras It was in the pages of the photo magazines as advertisements occasionally as part of an article occasionally The two beacons of perfection allegedly were the Hasselblad 500c and the Leica whatever For some reason the Leica never caused a spark in me back then Now sure but not then Canon Minolta Nikon and Olympus cameras also were dreams at the top of many of my wish lists The Hasselblad 500c though that was on a level all its own Then suddenly digital photography dawned and everyone was ditching their film gear A fellow photographer said Hey do you still want a Hasselblad because a friend of mine s selling one It still was more than two weeks salary but it was cheaper than it had been I had to have it And it is an amazing camera

Vol. 29: Medium-Format Photography III: Mamiya C3 & C330 Shawn M. Tomlinson,2018-12-22 There s something odd about twin lens reflex TLR film cameras but very appealing I can t really explain it TLR cameras are bulky awkward to use and well kind of weird Still I love picking one up and taking it out to shoot Mamiya TLRs comprise a rare line of TLR cameras in that they were the only pro TLR cameras that had interchangeable lenses other than Contaflex That fact alone made me long for one a long time When I bought my Yashica Mat EM there were Mamiya TLR cameras available but usually at two to three times the cost Like the other medium format MF cameras Hasselblad Bronica Pentax etc the Mamiyas were far out of reach That is until around 2003 when photographers were ditching their film cameras and selling them cheap They may not be as cheap now but they re still worth the prices As I said shooting with a TLR is an odd experience but one definitely worth experiencing *Byte* ,1984 Marine insurance.
