God and the History of the Universe Jarvis Streeter, 2016-03-22 The popular belief that a scientific understanding of reality is incompatible with a Christian one is simply wrong Some Christian understandings of reality do conflict with some scientific understandings But a thoroughly rational Christian understanding of the origin and history of the universe will be informed by the best scientific theories and the facts founded on them This book weaves a narrative of the origin and history of the universe from the perspective of contemporary science with a Christian understanding of God and of God s role in the origin and history of the universe At the center of this integrated narrative is the view that God who is pure unbounded Love is Creator the zest for life in the universe comes from God and God is the source of Truth Beauty and Goodness in the universe God is amazed and delighted at what God and the world has created God is saddened by ways creatures have fallen short of pure unbounded Love Truth Beauty and Goodness and God s pure unbounded Love keeps on trying to persuade all creatures toward Truth Beauty and Goodness

Origins Frank H. T. Rhodes, 2016-07-29 Fossils are the fragments from which piece by laborious piece the great mosaic of the history of life has been constructed Here and there we can supplement these meager scraps by the use of biochemical markers or geochemical signatures that add useful information but even with such additional help our reconstructions and our models of descent are often tentative For the fossil record is as we have seen as biased as it is incomplete But fragmentary selective and biased though it is the fossil record with all its imperfections is still a treasure Though whole chapters are missing many pages lost and the earliest pages so damaged as to be as yet virtually unreadable this the greatest biography of all is one in whose closing pages we find ourselves from Origins In Origins Frank H T Rhodes explores the origin and evolution of living things the changing environments in which they have developed and the challenges we now face on an increasingly crowded and polluted planet Rhodes argues that the future well being of our burgeoning population depends in no small part on our understanding of life s past its long and slow development and its intricate interdependencies Rhodes s accessible and extensively illustrated treatment of the origins narrative describes the

nature of the search for prehistoric life the significance of geologic time the origin of life the emergence and spread of flora and fauna the evolution of primates and the emergence of modern humans **Building Belief** Chad V. Meister, 2009-06-01 Take a journey from doubt to belief It can be hard to share your faith with others especially when people can't agree on whether there is even any actual truth With that in mind Chad Meister has developed a simple logical way for you to help others move past relativism to a place where Christian belief makes sense the Apologetics Pyramid In Building Belief Meister leads you up each step of the pyramid beginning where many find themselves today doubting if anything is really true From there he powerfully builds a case for absolute truth the existence of God universal morals and values the reliability and divine inspiration of the Bible the resurrection of Christ and ultimately the good news that Jesus is the Son of God who offers salvation to the world Join Chad Meister in this concise clear and compelling book as he builds a persuasive case for the truth of Christianity Lee Strobel author The Case for Christ and The Case for Faith An excellent book to lead earnest enquirers from doubt to conviction about the basic truths of the Christian faith Norman L Geisler dean Southern Evangelical Seminary and Bible College Chad Meister is a force to be reckoned with and this delightful little book is a timely resource to be studied by Christians and given to non Christians J P Moreland distinguished professor of philosophy Talbot School of Theology author Love Your God with All Your Mind Building Belief is thoughtful fresh and full of personal and practical illustrations Meister strikes just the right balance providing a model for how apologetics ought to be done Paul Copan Pledger Family Chair of Philosophy and Ethics Palm Beach Atlantic University Meister offers both the tools and the method for making discussions with skeptics more fruitful Jay W Richards research fellow Acton Institute coauthor The Privileged Planet
