Transnational Civil Society in Asia Simon Avenell, Akihiro Ogawa, 2021-07-22 This edited volume addresses how transnational interactions among civil society actors in Asia and its sub regions are helping to strengthen common democratic values and transform dominant processes of policymaking and corporate capitalism in the region The contributors conceive of transnational civil society networks as constructive vehicles for both informing and persuading governments and businesses to adopt modify or abandon certain policies or positions This volume investigates the role of such networks through a range of interdisciplinary approaches bringing together case studies on Asian transnationalism from South Southeast and Northeast Asia across four key themes local transformations and connections diaspora politics cross regional initiatives and networks and global actors and influences Chapters demonstrate how transnational civil society is connecting people in local communities across Asia in parallel to ongoing tensions between nation states and civil society By highlighting the grassroots regionalization emerging from ever intensifying information exchange between civil society actors across borders as well as concrete transnational initiatives uniting actors across Asia the volume advances the intellectual mandate of redefining Asia as a dynamic and interconnected formation Transnational Civil Society in Asia will appeal to students and scholars of international relations politics and Asian studies more broadly **Detention and its Alternatives under International Law** Lorna McGregor, 2023-10-17 In theory international law provides a clear framework for ensuring the rarity of detention by either characterising a detention practice as inherently arbitrary or treating it as a measure of last resort However some critics have argued that international law prioritises procedural safeguards leaving the international law on the legitimacy necessity and proportionality of detention and its alternatives underdeveloped Detention and its Alternatives under International Law analyses the current state of the international law on detention and its

alternatives within national law and policy It addresses armed conflict counterterrorism criminal justice mental health migration public health and social care The book discusses a number of topics such as shortcomings in how international law addresses structural inequality and discrimination the level of scrutiny applied to the evidence supporting decisions to detain and the availability and proportionality of alternatives to detention and their compatibility with human rights All chapters analyse how new and emerging technologies affect decisions to detain as well as the nature of alternatives to detention Without conflating different forms of detention the book proposes key means of making detention a true measure of last resort Detention and its Alternatives under International Law will be a valuable resource to practitioners and scholars working on the right to liberty or the underlying policy areas in which detention is employed as a tool **Congressional**
