however lies in the architecture and sculpture of the exhilarating years of Roman High Baroque when Bernini Borromini and Cortona were all at work under a series of enlightened popes Wittkower's text is now accompanied by a critical introduction and substantial new bibliography This edition now published in three volumes will also include color illustrations for the first time **The Artist as Reader: On Education and Non-Education of Early Modern Artists**, 2012-12-03 Reading is

apparently the greatest proof of refinement when viewed within the context of the social climb of the visual artist It is only as reader that the artist can participate in the exclusive culture of clerics humanists rulers and courtiers How did it come about that such a figure was integrated into the general history of knowledge context of research on the early modern period in order to outline what artists reading specifically entails Based on the history of knowledge the contributions to this volume will then correspondingly elucidate various aspects of how in the early modern period artists education knowledge reading and libraries were related to the ways in which they presented themselves The volume endeavours at long last to go beyond merely publishing inventories by investigating the problem of artists libraries with a fundamentally stronger emphasis on a discourse analytical and history of knowledge approach Contributors include Rainer Bayreuther Maria Barbara Cile Beuzelin Heiko Damm Annette de Vries Kelly Donahue Wallace Angela Dressen Lex Hermans Eckhard Leuschner Alexander Marr Martin Papenbrock Tico Seifert Eva Struhel Michael Thimann Huub van der Linden Elsje van Kessel Iris Wenderholm and Claus Zittel *The Routledge Companion to Global Renaissance Art* Stephen J. Campbell, Stephanie Porras, 2024-01-22

This companion examines the global Renaissance through object based case studies of artistic production from Africa Asia the Americas and Europe in the early modern period The international group of contributors take an art historical approach characterized by close analysis of form and meaning as well as function and a focus on questions of crosscultural dialogue and adaptation Seeking to de-emphasize the traditional focus on Europe this book is a critical guide to the literature and the state of the field Chapters outline new questions and agendas while pushing beyond familiar material Main themes include workshops the migrations of artists objects technologies diplomatic gifts imperial ideologies ethnicity and indigeneity sacred spaces and image cults as well as engaging with the open questions of the Renaissance and the global This will be a useful and important resource for researchers and students alike and will be of interest to scholars working in art history visual culture material culture and Renaissance studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
