Sesame Street Of People Things:

Quicklet on Malcolm Gladwell's The Tipping Point: How Little Things Can Make a Big Difference

(CliffNotes-like Summary and Analysis) Scott James, 2012-07-30 ABOUT THE BOOK The world of the Tipping Point is a place where the unexpected becomes expected where radical change is more than possibility Malcolm Gladwell's The Tipping Point How Little Things Can Make a Big Difference is an irreverent fresh look at why some things become trends and others don't We are all familiar with and a part of trends fads and cultural shifts but often we don't understand them It's easy to understand why specific things happen in our own lives but most of us just stare off into space and shake our heads when we happen to think about why some shirt is in style or why a neighborhood is getting more dangerous We don't know because there are too many moving parts to think about In this book Gladwell zooms in on the relatively microscopic people aspects and conditions that spread those trends He uses the overarching metaphor of an epidemic as a visualization of how ideas spread Do you know why suddenly some video of a little kid is everywhere on the Internet or why Harry Potter became the most popular book in the world Malcolm Gladwell thinks he does For most of us trends and ideas are just things that happen around us Much of what Gladwell is doing makes causes and effects that are too big to think about more human and personal In that way he gives us something to grab hold of It's as if he is taking massive spreadsheets and computer models of information and explaining them to you at a cocktail party over a martini It works and he makes a lot of sense Sitting there reading it over you'll think Yeah of course I already knew that which is always the mark of a good explanation Of course it's impossible to ever know for sure why one fad happens and another doesn't make it out of the gate but by the end of the book Gladwell has drilled down into the minutiae and created a compelling breakdown on how it generally works We all understand things that we've never put into words quite succinctly Gladwell is doing exactly that in this book The strength of his pop science is that he gives concrete names to nebulous causes that create our world EXCERPT FROM THE BOOK The Tipping Point grew out of an article I wrote as a freelancer for Tina Brown at the New Yorker who ran the piece and then to my surprise and delight hired me Thank you Tina Malcolm Gladwell is a prolific writer who lives in New York His books and articles generate a lot of conversation and debate because they dig into highly contentious and often unanswerable issues He is a special contributor to The New Yorker magazine where he writes about things like the science of cool hunting race and sports physical genius the concept of moral hazard and health care and the difference between puzzles and mysteries He has published several popular books including Blink and Outliers His articles and books are often called pop science because he takes research rearranges it and uses it to draw new conclusions about why things happen in our world Most often his topics are questions that can't be definitively answered or investigations of concepts that are unresolved while being somehow both common and mysterious His writing is widely read and his breakdown of the tipping point concept has been widely referenced and utilized throughout marketing circles The revolutionary part of this chapter is that he actually pins down the

right size of a group to make it the most productive He takes a deep look at Gore a fabric innovation company The company is divided into 150 or so person teams that are separated

Weaving a Family Barbara Katz Rothman,2005 A man a woman and their biological children all of the same race the mythical nuclear family has been the bedrock of American cultural religious social and economic life since the Revolutionary War and even with all the changes we have absorbed in the last sixty years it essentially remains so Current trends in adoption however have begun to shift the dominant paradigm of the family in ways never before imagined Professional estimates show that in the United States today seven million families have been formed by adoption and 700 000 of them are interracial These still growing numbers have begun to radically change the face of the traditional American family Barbara Katz Rothman a noted sociologist who has explored motherhood in four previous books and has more recently explored the social implications of the human genome project now turns her eye toward race and family Weaving together the sociological the historical and the personal Barbara Katz Rothman looks at the contemporary American family through the lens of race race through the lens of adoption and all family race and adoption within the context of the changing meanings of motherhood She asks urgent and provocative questions about children as commodities about trophy children about the impact of genetics and about how these adopted children will find their racial ethnic or cultural identities Drawing on her own experience as the white mother of a black child on historical research on white people raising black children from slavery to contemporary times and pulling together work on race adoption and consumption Rothman offers us new insights for understanding the way that race and family are shaped in America today This book is compelling reading not only for those interested in family and society but for anyone grappling with the myriad issues that surround raising a child of a different race

Endangered Minds Jane M. Healy,2011-07-19 Is today s fast paced media culture creating a toxic environment for our children s brains In this landmark bestselling assessment tracing the roots of America s escalating crisis in education Jane M Healy Ph D examines how television video games and other components of popular culture compromise our children s ability to concentrate and to absorb and analyze information Drawing on neuropsychological research and an analysis of current educational practices Healy presents in clear understandable language How growing brains are physically shaped by experience Why television programs even supposedly educational shows like Sesame Street develop habits of mind that place children at a disadvantage in school Why increasing numbers of children are diagnosed with attention deficit disorder How parents and teachers can make a critical difference by making children good learners from the day they are born

The Postemotional Bully Stjepan Mestrovic,2014-12-15 The topics of bullying and hazing have sparked interest and discussion in recent years Hazing is a crime in the United States and Western nations have made efforts to stamp out bullying in schools the workplace and institutions However for the most part bullying and hazing are ill defined and lack theoretical perspective

Mestrovic brings classical as well as contemporary social theory to bear on this discussion Thorstein Veblen defined the predatory barbarian as the social type enshrined by modernity who prefers to use force over peaceable means to achieve ends On the other extreme Marcel Mauss wrote about the spirit of the gift and its obligations to give to receive and to reciprocate as the fundamental basis of social life Yet he argued that the spirit of modernity was disappearing with the progress of modernity Mestrovic traces this fundamental opposition between barbaric force or bullying versus benign obligation that is the spirit of the gift through a host of modernist and postmodernist thinkers and theories He introduces the concept of the postemotional bully as an alternative to both of these major bodies of social theory The postemotional bully as a social type is fungible beset by screen images on media and social media that are isolating and is at the mercy of the peer group Case studies focus on bullying and hazing specifically the cases of an American soldier who committed suicide in Afghanistan instances of torture at Abu Ghraib and the murder of a 23 year old African American inmate in a Southern state prison in the US
