# Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation

**Wolfgang Guggemos**

## **Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation:**

**Setting Priorities for Large Research Facility Projects Supported by the National Science Foundation** National Research Council, Division on Engineering and Physical Sciences, Board on Physics and Astronomy, Policy and Global Affairs, Committee on Science, Engineering, and Public Policy, Committee on Setting Priorities for NSF-Sponsored Large Research Facility Projects, 2004-06-15 In 1995 the National Science Foundation NSF created a special account to fund large several tens of millions of dollars research facilities Over the years these facilities have come to represent an increasingly prominent part of the nation's R D portfolio Recently concern has intensified about the way NSF is selecting projects for this account In 2003 six U S Senators including the chair and ranking member of the Senate Subcommittee on VA HUD and Independent Agencies Appropriations expressed these concerns in a letter to the NRC asking it to review the current prioritization process and report to us on how it can be improved This report presents a series of recommendations on how NSF can improve its priority setting process for large research facilities While noting that NSF has improved this process the report states that further strengthening is needed if NSF is to meet future demands for such projects *Setting Priorities For Large Research Facility Projects Supported By the National Science Foundation*, 2005 The National Academies Report regarding NSF's process for identifying approving constructing and managing large research facility projects states A number of concerns have been expressed by policy makers and researchers about the process used to rank large research facility projects for funding First the ability of new projects to be considered for approval at the National Science Board NSB level has stalled in the face of a backlog of approved but unfunded projects Second the rationale and criteria used to select projects and set priorities among projects for MREFC funding have not been clearly and publicly articulated Third there is a lack of funding for disciplines to conduct idea generating and project ranking activities and once ideas have some level of approval a lack of funding for conceptual development planning engineering and design information needed when judging whether a project is ready for funding in light of its ranking and for preparing a project for funding if it is selected Those concerns have eroded confidence among policy makers and the research community that large research facility projects are being ranked on the basis of their potential returns to science technology and society The report includes a number of recommendations by the Study Committee for actions by NSF to address these concerns The National Science Foundation NSF embraces the spirit of the Report's recommendations In this response we address the principles of the primary recommendations leaving the detailed mechanisms to be addressed in consultation with our communities the Office of Management and Budget OMB and Congress

**Setting Priorities for Large Research Facility Projects Supported by the National Science Foundation** National Research Council, Division on Engineering and Physical Sciences, Board on Physics and Astronomy, Policy and Global Affairs, Committee on Science, Engineering, and Public Policy, Committee on Setting Priorities for NSF-Sponsored Large Research Facility Projects, 2004-07-15 In 1995 the National Science Foundation NSF

created a special account to fund large several tens of millions of dollars research facilities Over the years these facilities have come to represent an increasingly prominent part of the nation s R D portfolio Recently concern has intensified about the way NSF is selecting projects for this account In 2003 six U S Senators including the chair and ranking member of the Senate Subcommittee on VA HUD and Independent Agencies Appropriations expressed these concerns in a letter to the NRC asking it to review the current prioritization process and report to us on how it can be improved This report presents a series of recommendations on how NSF can improve its priority setting process for large research facilities While noting that NSF has improved this process the report states that further strengthening is needed if NSF is to meet future demands for such projects

Setting Priorities for Large Research Facilities Projects Supported by the National Science Foundation National Science Board (U.S.),National Science Foundation (U.S.),2005 *Big science* Great Britain: National Audit Office,2007-01-24 Government invests in a range of large scientific facilities to support and develop the nation s science base The main components of planning for these facilities are a road map describing large facilities which UK scientists are likely to need in the next 10 to 15 years and a central fund the Large Facilities Capital Fund of around 100 million per year to support investments in such facilities by Research Councils Currently 830 million has been earmarked to 15 projects which are expected to cost the UK taxpayer some 1 2 billion to build Ten of these projects have now been approved one of which has been delivered with the others due for completion in the period to 2011 The report says it is too early to assess the value for money of the science facilities To date performance against capital budgets suggests some good budget management but the latest figures show that across the ten projects underway total capital expenditure is forecast to exceed approved budgets by 6 per cent Some projects are forecasting delivery dates some 12 months or more later than approved The forecast operating costs of some projects have increased by large amounts compared to estimates when their business cases were approved and the Research Councils need to do more work to estimate the likely ongoing costs of new facilities The report says ultimately the value of the facilities will depend on the scientific discoveries they make It also says that more work is needed by Research Councils to examine the potential impact of new facilities on the future demand for research funding Full use of these facilities will depend on research ideas competing successfully for research funding *NOAO-NSO Newsletter* ,2004 *National Optical Astronomy Observatories Newsletter* ,2004 **United States Code Service** United States,1972

## **Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation**

### **Introduction**

In today's digital age, the availability of Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in

## **Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation**

---

the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation books and manuals for download and embark on your journey of knowledge?

### **FAQs About Setting Priorities For Large Research Facility Projects Supported By The National Science Foundation Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities,
