Anne Bradstreet in Context Ann Beebe, 2025-07-30 The collection *The Tenth Muse Lately Sprung Up in America* by Anne Bradstreet, the first book of poetry published by a permanent resident of colonial America, appeared in 1650 thanks to the support of Bradstreet's brother-in-law. By this time she had immigrated to New England with her husband, given birth to seven of her eight children, settled on her fifth and final homestead, and gained access to a network of influential Puritan leaders via the various positions held by her father, husband, brothers, and brothers-in-law within the Massachusetts Bay Colony government. This study of Bradstreet explores the literary, religious, political, social, and familial contexts of colonial America that shaped her life and work. Bradstreet embraced her identity as a poet of her time, drawing inspiration from earlier writers as well as her contemporaries who used a common set of stylistic conventions to explore themes of love, faith, loss, and mortality. Given the scarcity of recent scholarship on Bradstreet, this book is designed as a versatile resource: a blend of biography, literary analysis, history, genealogy, reference, and textbook that situates Bradstreet's poetry within the greater context of the seventeenth century.

The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation, and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

Seventeenth century contexts, Rev George Williamson, *Practicing Materiality* Ruth M. Van Dyke, 2015-11-12 It is little wonder that relationships between things and humans are front and center in the contemporary social sciences, given the presence of technologies in every conceivable aspect of our lives. From Bruno Latour to Ian Hodder, anthropologists and archaeologists are embracing thing theory and the ontological turn. In *Practicing Materiality*, Ruth M. Van Dyke cautions that as

anthropologists turn toward animals and things they run the risk of turning away from people and intentional actions

Practicing Materiality focuses on the practical job of applying materiality to anthropological investigations but with the firm retention of anthropocentrism The philosophical discussions that run through the nine chapters develop practical applications for material studies including Heideggerian phenomenology Gellian secondary agency object life histories and bundling Seven case studies are flanked by an introduction and a discussion chapter The case studies represent a wide range of archaeological and anthropological contexts from contemporary New York City and Turkey to fifteenth century Portugal the ancient southwest United States and the ancient Andes Authors in every chapter argue for the rejection of subject object dualism regarding material things as actively involved in the negotiation of power within human social relationships

Practicing Materiality demonstrates that it is possible to focus on the entangled lives of things without losing sight of their political and social implications

Domestic Architecture and Power Ross W. Jamieson, 2000 This volume is a study of the power relationships inherent in domestic architecture and household material culture that were essential to the maintenance of the Spanish colonial empire Using the household spatial patterning furnishings and personal belongings of residents of the highland city of Cuenca Ecuador during the seventeenth and eighteenth centuries the book examines gender ethnic and status relations in the colonial Andean world
