## **Sewer Sam The Sea Cow:**

**Sewer Sam, the Sea Cow** Francine Jacobs, 1979-01-01 Follows the adventures of a manatee or sea cow from birth till after he leaves his mother      **Ocean Mammal Protection, Hearings Before the Subcommittee on Oceans and Atmosphere..., 92-2, on S. 685, 1315, 2579, 2639, 2871, 3112, 3161, and Amendment 1048, Ocean Mammal Legislation....** United States. Congress. Senate. Commerce, 1972      **Hearings** United States. Congress. Senate. Committee on Commerce, 1972      **Ocean Mammal Protection** United States. Congress. Senate. Committee on Commerce. Subcommittee on Oceans and Atmosphere, 1972      **Sirenews** ,      **Manatee Insanity** Craig Pittman, 2010-05-09 The quiet manatee has long been a flash point of frequent environmental debates It is Florida s most famous endangered species as well as its most controversial Manatees appear on hundreds of license plates attract hordes of tourists and expose the uneasy relationships between science and the law and between freedom and responsibility like no other animal As passions have flared and resentments have grown the battle over manatee protection has evolved into a war and no reporter has followed the story more closely than Craig Pittman the first environmental writer to explore the complex history culture and science of the controversies and concerns surrounding this remarkable creature With an abiding interest in the uncertain fate of this unique species Manatee Insanity provides the first in depth history of the attempts to provide legal protection for the manatee Pittman follows Florida s gentle giants through time and space detailing interactions with a variety of human actors from Jacques Yves Cousteau to Jeb Bush to Jimmy Buffett from a popular children s book author to a federal lawman who dressed in a gorilla suit for the ultimate undercover assignment      **Ontogeny, Intraspecific Variation, and Systematics of the Late Cambrian Trilobite Dikelocephalus** Nigel C. Hughes, 1994 Biometric analyses of well localized specimens of the trilobite Dikelocephalus from the St Lawrence Formation Upper Cambrian northern Mississippi Valley suggest that all specimens belong to a single highly variable morphospecies D minnesotensis A complex pattern of ontogenetically related and ontogeny independent variation produced a mosaic of morphotypes which show greater diversity than previously recorded within trilobite species There is considerable variation within collections made from single beds Variations of characters among collections are mosaic and are clinal in some cases Patterns of variation within Dikelocephalus cannot be related to lithofacies occurrence There are no obvious temporal variations in D minnesotensis within the St Lawrence Formation but some Dikelocephalus from the underlying Tunnel City Group may belong to a different taxon The validity of this early taxon is questionable due to a lack of available material The mosaic pattern of variation in Dikelocephalus mimics that documented at higher taxonomic levels in primitive libristomate trilobites and helps explain difficulties in providing a workable taxonomy of primitive trilobites Results caution proposition of evolutionary scenarios that do not take account of intraspecific variation The recovery of dorsal shields of Dikelocephalus permits the first detailed reconstruction of the entire exoskeleton The systematics of the genus is revised and twenty five species are suppressed as junior synonyms of D
