Conceptualisation of a Strategic Framework Nils Berkemeyer, 2016-05-06 Master's Thesis from the year 2015 in the subject Business economics Business Management Corporate Governance grade 1.0 Cass Business School language English abstract An increasing number of journalistic articles and academic literature deal with the struggle of established companies to fend off the attacks by industry newcomers such as Airbnb Spotify Netflix Google and many others These companies enter traditional industries with innovative business models and compete in a manner which makes it challenging for incumbent firms to understand their novel competition and respond effectively This study introduces a typology of three stages of industry disruption that classify the newcomer's developmental stage and describe the incumbent's competitive position in terms of competition intensity and remaining time to respond It is demonstrated how incumbents may conduct their strategic reasoning along these stages to arrive at a strategic goal and evaluate possible counter measures *The Deal*, 2010

*Bloomberg Businessweek*, 2010-04 **Der Spiegel** Rudolf Augstein, 2020 *How do Fintech Startups and a Changing Consumer Behavior Reshape the Financial Services Industry?* Viktor Kanzler, 2015-05-18 Bachelor Thesis from the year 2015 in the subject Business economics Business Management Corporate Governance grade 1.3 Frankfurt School of Finance Management language English abstract The purpose of this study is to illustrate how Fintech startups and other non financial institutions reshape the finance industry as they take advantage of recent technology trends and lifestyle shifts affecting customers expectations The thesis aims to show how the competitive landscape changes and to what extent digital attackers grab parts of the value chain The study also maps out the Fintech landscape highlights important growth trends and gives an overview of the services and products with which Fintech startups are currently edging into the market Moreover the study points out the specific drivers and barriers relevant to Fintech companies A further objective was to find out whether Fintech

startups pose a serious threat to traditional providers and if so which generic approaches exist to deal with these attackers Apart from that the aim was to identify how peers address digitization as well as what strengths traditional banks can rely on Last but not least the study demonstrates what banks and other institutions can learn from Fintech startups and how the future of finance could develop and look like in 2020 *What Happens Now?* Sophia Money-Coutts,2019-08-22 One first date One not so little mistake What happens now Completely hilarious Hugely funny refreshingly honest a total joy You ll cry with laughter but real tears too **Prospect** ,2009 *Show me your playlist and I tell you who you are* Kathrin Rochow,2012-11-28 Bachelor Thesis from the year 2010 in the subject Psychology Social Psychology grade 1 0 Uppsala University language English abstract In the age of social networking and music streaming playlists are a common tool for organizing sharing or exchanging music in the digital realm Most research however emphasizes mainly political legal and ethical constraints of music sharing practices yet neglects their social impact Thus this paper investigates the social psychological foundation of the playlist and analyses its functionality in establishing social relations and communication Following the theories of Cooley Mead Simmel and Solomon I conducted and analysed interviews with young Swedish men and women in which they talked about their experiences and attitudes towards playlists Moreover all participants compiled their own personal playlist based on certain personality traits which were aimed to be recognized by the others during the focus group discussion The analysis of the data yields the following conclusions The playlist is a social object facilitating new forms of communication The social nature of the playlist is based on the transformation from objective into subjective culture By internalizing new technologies such as the playlist objects gain social value thus mere musical content becomes a social form It is through sharing and exchanging musical compilations that the playlist as a social form serves as a vehicle or medium facilitating new forms of sociation and communication The communicative function of the playlist is due to its construction through emotions as uniquely subjective judgements based on the I as an emotional self feeling Thus musical compilations take part in the self construction process and can serve as a tool for the symbolic expression of the self Moreover the analysis points out that there are differences in how well certain parts of the self can be communicated by a playlist Emotional expressions of the self are translated into particular universal music patterns most successfully Furthermore the analysis shows that some people like to browse through the playlists of others and judge them thereupon which results in some type of musical voyeurism termed playlistism In conclusion I argue that the musical playlist is both socially implicated and socially implicating **Longpath** Ari Wallach,2022-08-16 An antidote to nearsightedness Ari Wallach won t just leave you planning months or years ahead he challenges you to look generations ahead Get ready to think and think again Adam Grant 1 New York Times bestselling author of Think Again and host of the TED podcast WorkLife A paradigm shifting manifesto for transforming your thinking from reactionary short termism to the long term widening your scope beyond today tomorrow and to even five hundred years from now to reclaim meaning in your life from futurist and host

Attitudes towards her "Crossing" on Social Media ,2022-08-09 Seminar paper from the year

2019 in the subject English Language and Literature Studies Linguistics grade 1 7 University of Münster language English

abstract Iggy Azalea a white Australian hip hop artist uses African American Vernacular English when rapping Whether this act of crossing is cultural appropriation was debated on social media and in the news The question this paper aims to answer is if the wider audience on YouTube has a negative attitude towards Azalea s crossing Considering the extensive media coverage of which a substantial part was critical of Azalea s language use during performance the hypothesis is that the majority of the YouTube audience is negative towards this issue But before the data can be analysed there is essential information that requires to be provided This information will be given in the next part and it includes Iggy Azalea s biographical background as well as relevant terms and concepts namely African American English the hip hop nation and its language and crossing Moreover the study by Eberhardt and Freeman shall be presented in more detail Before moving on to the empirical part of this paper where comments below the music videos Work and Fancy are analysed there shall be a short excursion on language attitudes and how to research them Then having presented and analysed the results of the study the findings shall be discussed until finally some concluding remarks are made
