Analogy after Aquinas Domenic D'Ettore, 2018-10-31 Since the first decade of the 14th Century Thomas Aquinas s disciples have struggled to explain and defend his doctrine of analogy *Analogy after Aquinas Logical Problems Thomistic Answers* relates a history of prominent Medieval and Renaissance Thomists efforts to solve three distinct but interrelated problems arising from their reading both of Aquinas s own texts on analogy and from John Duns Scotus s arguments against analogy and in favor of univocity in Metaphysics and Natural Theology The first of these three problems concerns Aquinas s at least apparently disparate statements on whether a name is said by analogy through a single concept or through diverse concepts The second problem concerns the model of analogy suited for predicating names analogously across the categories of being or about God and creatures Is being said analogously about God and creatures or substance and accidents on the model of how healthy is said of medicine and an animal or on the model of how principle is said of a point and a line The third problem comes from outside challenges to Aquinas s thought in particular Scotus claims that univocal names alone can mediate valid demonstrations and any demonstration that failed to use its mediating terms univocally would fail by the fallacy of equivocation *Analogy after Aquinas* makes a unique contribution to the study of philosophical theology in the tradition of Thomas Aquinas by showing the historical and philosophical connection between these three problems as well as the variety of solutions proposed by leading representatives of this tradition Thomists considered in the book include Hervaeus Natalis 1250 1323 Thomas Sutton 1250 1315 John Capreolus 1380 1444 Dominic of Flanders 1425 1479 Paul Soncinas d 1494 Thomas dio vio Cajetan 1469 1534 Francis Silvestri of Ferrara 1474 1528 and Chrysostom Javelli 1470 1538
