Rifles Of Colonial America Volume Ii

Pamela Haag

Rifles Of Colonial America Volume Ii:

American Constitutional Law, Volume II Ralph Rossum, Alan Tarr, Vincent Phillip Munoz, 2019-07-23 American Constitutional Law 11e Volume II provides a comprehensive account of the nation's defining document examining how its provisions were originally understood by those who drafted and ratified it and how they have since been interpreted by the Supreme Court Congress the President lower federal courts and state judiciaries Clear and accessible chapter introductions and a careful balance between classic and recent cases provide students with a sense of how the law has been understood and construed over the years The 11th Edition now includes several landmark First Amendment cases including *Janus v American Federation of State County and Municipal Employees* 2018 *Minnesota Voters Alliance v Mansky* 2018 *National Institute of Family and Life Advocates v Beccera* 2018 *Trinity Lutheran Church v Comer* 2017 and *Masterpiece Cakeshop v Colorado Civil Rights Commission* 2018 It also includes *Carpenter v United States* 2018 A revamped and expanded companion website offers access to even more additional cases an archive of primary documents and links to online resources making this text essential for any constitutional law course

American Military Shoulder Arms, Volume II George D. Moller, 2011-11-15 New data surrounding the procurement and modifications of arms produced by the national armories and under federal contract procured by the individual states and by individual members of militias is presented here for the first time This information interwoven with military political economic and social factors results in new and better definitions and a clearer understanding of the arms historical context Though this work focuses on military flintlock shoulder arms details on the federal government's procurement of arms for Indians during rapidly changing military policies of the period is also included *American Military Shoulder Arms Volume II* contains more than three hundred photographs As with the previous volume Volume II is written primarily for students of arms but also contains material of interest to historians museum specialists collectors and dealers of antique arms

Latin America's Wars Volume II: The Age of the Professional Soldier, 1900-2001 Robert L. Scheina, 2003-07-31 The second volume in Robert Scheina's definitive study of Latin American military history draws upon years of extensive research and teaching in the field Although wags in the United States have quipped that if Latin America's military forces were not constantly seeking political power they would have nothing to do Scheina describes how these men have not only bravely defended their own homelands from foreign enemies but have also gone abroad to fight in both world wars and in the Korean War This groundbreaking volume also examines the numerous U S interventions in Latin America during the twentieth century and the various motivations for them ranging from the petty interests of influential North American businesses to global concerns with grand strategy which for example resulted in the building of the Panama Canal Scheina concludes by exploring the role of Latin America in the Cold War and Colombia's ongoing conflict with the drug cartels He focuses on operational history in the context of war as an instrument of politics and society including insightful analyses of the military as an institution and of its relations with civilian government

Latin America's Wars fills a void in the literature broadens U.S. readers' understanding of their neighbors and serves as a point of departure for new scholarship. **The Common Law in Colonial America** William E. Nelson, 2012-12-01 William E. Nelson's first volume of the four-volume *The Common Law of Colonial America* 2008 established a new benchmark for study of colonial era legal history. Drawing from both a rich archival base and existing scholarship on the topic, the first volume demonstrated how the legal systems of Britain's thirteen North American colonies, each of which had unique economies, political structures, and religious institutions, slowly converged into a common law order that differed substantially from English common law. The first volume focused on how the legal systems of the Chesapeake colonies, Virginia and Maryland, contrasted with those of the New England colonies and traced these dissimilarities from the initial settlement of America until approximately 1660. In this new volume, Nelson brings the discussion forward, covering the years from 1660, which saw the Restoration of the British monarchy, to 1730. In particular, he analyzes the impact that an increasingly powerful British government had on the evolution of the common law in the New World. As the reach of the Crown extended, Britain imposed far more restrictions than before on the new colonies it had chartered in the Carolinas and the middle Atlantic region. The government's intent was to ensure that colonies' laws would align more tightly with British law. Nelson examines how the newfound coherence in British colonial policy led these new colonies to develop common law systems that corresponded more closely with one another, eliminating much of the variation that socio-economic differences had created in the earliest colonies. As this volume reveals, these trends in governance ultimately resulted in a tension between top-down pressures from Britain for a more uniform system of laws and bottom-up pressures from colonists to develop their own common law norms and preserve their own distinctive societies. Authoritative and deeply researched, the volumes in *The Common Law of Colonial America* will become the foundational resource for anyone interested in the history of American law before the Revolution.

To Compel with Armed Force Harry Daniel Tunnell, 2000 **The Gunning of America** Pamela Haag, 2016-04-19 Americans have always loved guns. This special bond was forged during the American Revolution and sanctified by the Second Amendment. It is because of this exceptional relationship that American civilians are more heavily armed than the citizens of any other nation. Or so we're told. In *The Gunning of America*, historian Pamela Haag overturns this conventional wisdom. American gun culture, she argues, developed not because the gun was exceptional but precisely because it was not. Guns proliferated in America because throughout most of the nation's history they were perceived as an unexceptional commodity, no different than buttons or typewriters. Focusing on the history of the Winchester Repeating Arms Company, one of the most iconic arms manufacturers in America, Haag challenges many basic assumptions of how and when America became a gun culture. Under the leadership of Oliver Winchester and his heirs, the company used aggressive, sometimes ingenious sales and marketing techniques to create new markets for their product. Guns have never sold themselves; rather, through advertising and innovative distribution campaigns, the gun industry did. Through the meticulous examination of gun

industry archives Haag challenges the myth of a primal bond between Americans and their firearms Over the course of its 150 year history the Winchester Repeating Arms Company sold over 8 million guns But Oliver Winchester a shirtmaker in his previous career had no apparent qualms about a life spent arming America His daughter in law Sarah Winchester was a different story Legend holds that Sarah was haunted by what she considered a vast blood fortune and became convinced that the ghosts of rifle victims were haunting her She channeled much of her inheritance and her conflicted conscience into a monstrous estate now known as the Winchester Mystery House where she sought refuge from this ever expanding army of phantoms In this provocative and deeply researched work of narrative history Haag fundamentally revises the history of arms in America and in so doing explodes the cliché that have created and sustained our lethal gun culture **The Road to**

Guilford Courthouse John Buchanan,1999-07-01 A brilliant account of the proud and ferocious American fighters who stood up to the British forces in savage battles crucial in deciding both the fate of the Carolina colonies and the outcome of the war A tense exciting historical account of a little known chapter of the Revolution displaying history writing at its best Kirkus Reviews His compelling narrative brings readers closer than ever before to the reality of Revolutionary warfare in the Carolinas Raleigh News Observer Buchanan makes the subject come alive like few others I have seen Dennis Conrad Editor The Nathanael Greene Papers John Buchanan offers us a lively accurate account of a critical period in the War of Independence in the South Based on numerous printed primary and secondary sources it deserves a large reading audience Don Higginbotham Professor of History University of North Carolina Chapel Hill The Publishers' Trade List Annual ,1991

American History Told by Contemporaries ... Albert Bushnell Hart,John Gould Curtis,1897 Era of colonization, 1492-1689 Albert Bushnell Hart,1897 American History Told by Contemporaries...: Era of colonization, 1492-1689. 1897

Albert Bushnell Hart,1897 **Tullidge's Histories, (volume II) Containing the History of All the Northern, Eastern and Western Counties of Utah** Edward William Tullidge,1889 Themes in International Economics Mats

Lundahl,2018-12-07 First published in 1998 this collection of essays deals with four different areas of international economics the theory of international trade trade and development protectionism and factor movements notably migration and foreign aid These themes explore the determinants of trade patterns the relation between these patterns and those of underdevelopment and development the failure of protectionism to increase welfare and finally the impact of emigration on the source country and that of foreign aid on the recipient country **France and England in North America: Montcalm**

and Wolfe. 1884. 2 v Francis Parkman,1884 **Narrative and critical history of America, ed. by J. Winsor.
