**The Right Stuff** Tom Wolfe, 2008-03-04 Tom Wolfe at his very best The New York Times Book Review *The Right Stuff* is the basis for the 1983 Oscar Award winning film of the same name and the 8 part Disney TV mini series From America s nerviest journalist Newsweek a breath taking epic a magnificent adventure story and an investigation into the true heroism and courage of the first Americans to conquer space Millions of words have poured forth about man s trip to the moon but until now few people have had a sense of the most engrossing side of the adventure namely what went on in the minds of the astronauts themselves in space on the moon and even during certain odysseys on earth It is this the inner life of the astronauts that Tom Wolfe describes with his almost uncanny empathetic powers that made *The Right Stuff* a classic

**Jet-set** ,1989 **Tom Wolfe's America** Kevin T. McEneaney, 2009-04-30 While *The Right Stuff* and *The Bonfire of the Vanities* remain perhaps his best known works Tom Wolfe s journalism and fiction continues to enjoy a large audience perhaps chiefly because of the variety of his subjects and his controversial approach to them Here McEneaney offers an account of the man and his works explaining along the way Wolfe s use of irony his obsessive themes and even his use of pranks More comprehensive in scope than any preceding book on Wolfe it offers accurate and accessible commentary based upon what Wolfe admits about his own work In this new book Wolfe s work is put in journalistic and literary context The reliability of Wolfe s journalism is discussed especially when there are alternative narrations to events he has depicted McEneaney also examines the Wolfe s use of pranks that he plays on

readers at times and uncovers the influences on Wolfe that have contributed to his unique style Finally the author discusses Wolfe's impact on other writers Readers will gain access into Wolfe's world through this detailed and colorful work

**10 Discussions for Effective Leadership** R. Perras, M. Bellefeuille, B. Lindia, 2012-11 INTRODUCTION This is the second book from the lead author Raymond Perras Teaming up with two leadership coaching clients Marcel Bellefeuille from

the world of professional sports and Bruno Lindia a CEO and business owner Raymond has developed a unique and groundbreaking effort to bring forward some issues that do not often get dealt with in a leadership book Based on the concept of Peak Performance the right stuff in the right amount at the right time TM this work provides a leader with insight into how to maximize results while reducing stress It is not meant to confirm what a leader already knows but rather to serve as a basis to contemplate how a person who leads a team can help create an atmosphere that enables people to exceed expectations on a routine basis Tapping their experiences in leading and coaching leaders the authors have shared insights into some of the less glamorous aspects of leadership The goal is to raise a leader s awareness to the fact that the team results can be improved when attention is paid to specific aspects of leadership in order to increase effectiveness The implementation of a thinking process that ensures a continuous effort to seek peak performance ultimately enables everyone to exceed expectations The book provides insight into the state of leadership highlighting the results of research done in 2011 by Development Dimensions International to guide the reader s focus toward some leadership traps that can torpedo the best efforts to be an effective leader In a three distinct statement approach the 10 chapters each address one of the activities or issues that the authors have identified as mission critical for a leader based on their professional experience Through a prioritized list from a brainstorm exercise on usual traps that can create a barrier to leadership success the authors selected 10 activities that may make or break a leader on the journey to leadership excellence The 10 activities are not in order of priority only proposed as cautionary subjects for the leader who seeks to be effective in leading a team The 10 activities are discussed by each of the authors on the basis of their work experience and are listed as follows in the Table of Content 1 The Right Stuff in the Right Amount at the Right Time in an effort to minimize waste and maximize result the leader is encouraged to make judicious choices in order to have sufficient resources to address the priority issues 2 The Myth of Empowerment reflections are shared on how this term is used extensively but often is not reflected in the actual leadership activities People are said to be empowered but the end result is responsibility without authority delegation is not true delegation 3 Trust and The Boomerang Theory this critical quality of a leader is discussed to bring awareness to the fact that a person cannot expect trust if he or she does not trust first In the end results are greatly reduced when trust is not in the mix 4 Telling The Truth the discussion centres on the common difficulty for a leader to tell it like it is In a place where trust is lacking stories are usually made up to cover or twist the truth with a negative impact on the team 5 Optimize Results with Joint Planning too often projects do not bring the desired end results and expectations are not fulfilled because information is held back or key people are not involved at the planning stage Taking the time to listen and involve people usually will optimize results 6 Clarity of Vision Leads to Success the point is that when a leader is not clear on the shape and form of a successful outcome it is very difficult to provide guidance and leadership in an effective way A clear vision takes time to formulate and a leader will do well to define his vision and share it with the team Here we are talking about a vision

of HOW we will work as a team A project's outcome is usually quite clearly defined

**The Astronaut** Dario Llinares, 2011-05-25 The Astronaut Cultural Mythology and Idealised Masculinity interrogates the historical and cultural dynamics of one of the most revered icons of the 20th century Analysing a diverse range of cultural representations the book postulates the construction of an intertextual mythology through which the astronaut becomes an embodiment of American ideological values and heroic manhood The discursive processes at work in the range of media texts examined serve to embed the astronaut into the cultural imaginary as a largely coherent and uncontested exemplar of idealised masculinity Using a range of interdisciplinary analytical tools the book examines how the social construction of this masculine ideal iterates and naturalises gender hegemony The book situates the astronaut within the context of a modern postmodern theoretical framework linking shifts in gender perspectives to the contradictory narratives and characterisations that inform the mediation of the astronaut In so doing the book argues for a re-evaluation of the often oversimplified use of the term hegemonic masculinity as an anchoring point for the critique of masculinity The strength of this work is its interdisciplinary diversity and its interconnection of a range of themes including gender representation history ideology the postmodern and the media Drawing upon contemporary theoretical debates while re-deploying seminal theoretical texts the book offers new cultural interrogations of a highly familiar historical subject
