Natural law concerns the good by considering the God-given purpose of created things.

Thomas Aquinas is marred by sin, natural law theory suggests that the good can still be discovered to some extent. Thomas Aquinas famously argues that natural law involves all intelligent creatures sharing in (formal) which they tend toward their

ends.<sup>2</sup> Natural law theory often focuses on how reason or conscience discerns the good. Natural law can often emphasize the doctrine of creation and natural revelation. The conclusion from natural law ethics is that

humans have some natural ability to discern the good. Yet, natural law ethics faces the risk of absolutizing one's cultural perspective as that which is natural and obviously rational.

For this reason, Christians do well to consider ethics from various cultural perspectives.<sup>3</sup> In the twentieth century many Protestants

**Rights and Christian Ethics** Kieran Cronin,1992 Kieran Cronin helps philosophers and theologians to understand each other's perspectives on rights making this book a significant contribution to Christian ethics and moral philosophy The Cambridge Companion to Christian Ethics Robin Gill,2001 Provides a comprehensive introduction to Christian ethics which is both authoritative and up to date **Christian Ethics** Newman Smyth,1893 **Christian Ethics and Moral Philosophy** Craig A. Boyd,Don Thorsen,2018-11-06 This introductory textbook presents Christian philosophical and theological approaches to ethics Combining their expertise in philosophy and theology the authors explain the beliefs values and practices of various Christian ethical viewpoints addressing biblical teachings as well as traditional ethical theories that contribute to informed moral decision making Each chapter begins with Words to Watch and includes a relevant case study on a vexing ethical issue such as caring for the environment human sexuality abortion capital punishment war and euthanasia End of chapter reflection questions illustrations and additional information tables are also included Economic Compulsion and Christian Ethics Albino Barrera,2005-09-08 Markets can often be harsh in compelling people to make unpalatable economic choices any reasonable person would not take under normal conditions Thus workers laid off in mid career accept lower paid jobs that are beneath their professional experience for want of better alternatives Economic migrants leave their families and cross borders legally or illegally in search of a livelihood These are examples of economic compulsion These economic ripple effects have been virtually ignored in ethical discourse because they are generally accepted to be the very mechanisms that generate the market's much touted allocative efficiency Albino Barrera argues that Christian thought on economic security offers an effective framework within which to address the consequences of economic compulsion **Market Complicity and Christian Ethics** Albino Barrera,2011-01-06 The marketplace is a remarkable social institution that has greatly extended our reach so shoppers in the West can now buy fresh cut flowers vegetables and tropical fruits grown halfway across the globe even in the depths of winter However these expanded choices have also come with considerable moral responsibilities as our economic decisions can have far reaching effects by either ennobling or debasing human lives In this book Albino Barrera examines our own moral responsibilities for the distant harms of our market transactions from a Christian viewpoint identifying how the market's division of labour makes us unwitting collaborators in others wrongdoing and in collective ills His important account covers a range of different subjects including law economics philosophy and theology in order to identify the injurious ripple effects of our market activities **Tensions in Christian Ethics** Malcolm Brown,2011-01-01 The book draws on the author's teaching of ethics at undergraduate and postgraduate level for the Cambridge Theological Federation since 2000 Its purpose is to introduce the reader to questions in Christian ethics through a careful examination of the fundamental meta ethical questions posed by the state we're in whether understood as a new phase of modernity or as postmodernity Brown draws on sources and authors from a variety of Christian

traditions and from Britain the U S A and Europe The book will be of use not only to university departments and denominational and ecumenical teaching institutions but also as a more general exposition of the current state of ethical thinking in the Christian churches     Christian Ethics Adolf Wuttke,1873     Christian Ethics Introduced Hans O. Tiefel,2024-03-11 Christian Ethics Introduced asks why humans count as ends in themselves The biblical answer was is that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged     The Global Face of Public Faith David Hollenbach,2003-10-09 The Global Face of Public Faith addresses the hotly debated question of the role religion should play in politics in both the American and international contexts It engages the fears that public religion threatens American democracy and could lead to a global clash of civilizations and new wars of religion It analyzes how Christianity can attain common ground with other religious communities thus becoming a force for peace and human rights The separation of church from state need not mean the privatization of religion Religious engagement in public life can strengthen civic life by encouraging active citizen participation that promotes both justice and peace The question of religion and politics should thus become an argument about how faith becomes public not whether it does Religious communities Christianity in particular should be vigorous advocates of human rights democratic governance and economic development worldwide In so doing they will also become peacemakers David Hollenbach is a calm voice of reason in a chaotic world with an eye that sees beyond national horizons to where human needs and human rights converge He is convinced that religious traditions can find common ground through the use of rights and rights language The Global Face of Public Faith reinforces his commitment to confronting such issues as poverty and economic development globalism and interreligious dialogue He focuses here on faith and the Catholic tradition in politics the role of the church in American public life and the wider issues of global challenges and ethics in a search for a common set of moral standards and a international ethic through a commitment to universal human rights While not denying the difficulties of forging such a consensus he nonetheless sees the possibility for justice and reasons for hope And hope is something the world can always use     *The Common Good and Christian Ethics* David Hollenbach,2002-08 The Common

Good and Christian Ethics rethinks the ancient tradition of the common good in a way that addresses contemporary social divisions both urban and global David Hollenbach draws on social analysis moral philosophy and theological ethics to chart new directions in both urban life and global society He argues that the division between the middle class and the poor in major cities and the challenges of globalisation require a new commitment to the common good and that both believers and secular people must move towards new forms of solidarity      **The Law of Love and Love as a Law ; Or, Christian Ethics** Mark Hopkins,1885      **Manual of Systematic Theology and Christian Ethics** Alvah Hovey,1877 Originally written for his students this well known 19th century Baptist minister turned out a proven classic of Theology His orderly statements of the evidence prove that the Scriptures are a trustworthy revelation of Divine Will The logical presentation of the blessed truths taught by the Scriptures has stood the test of time The treatment of nearly every topic is biblical rather than philosophical and will be found useful in proportion to the care with which the Bible is consulted      *Christian Ethics* Norman L.
