Lawrence, 2023-10-20 Using a critical lens derived from ecopsychology and its praxis ecotherapy this book explores the relationships Madeleine L'Engle

develops for her characters in a selection of the novels from her three Time Austin family and O Keefe family series as those relationships develop along a human nonhuman kinship continuum This is accomplished through an examination both of pairs of novels from the fantastic and the realistic series and of single novels which stand out as slightly different from the most prominent genre in a given series Thus this examination also shows L Engle's fluid movement along a fantasy reality continuum and demonstrates the integration of the three series with each other Importantly through examining these relationships and this movement along continuums in these novels the project demonstrates how ecopsychology and ecotherapy provide strong and important and as yet virtually unexplored intersections with children's literature

Conversations with Madeleine L'Engle Jackie C. Horne, 2018-12-03 Conversations with Madeleine L Engle is the first collection of interviews with the beloved children's book author best known for her 1962 Newbery Award winning novel *A Wrinkle in Time* However Madeleine L Engle's accomplishments as a writer spread far beyond children's literature Beginning her career as a literary novelist for adults L Engle 1918-2007 continued to write fiction for both young and old long after *A Wrinkle in Time* In her sixties she published personal memoirs and devotional texts that explored her relationship with religion At the time of her death L Engle was mourned by fans of her children's books and the larger Christian community L Engle's books as well as her life were often marked by contradictions A consummate storyteller L Engle carefully crafted and performed a public self image via her interviews Weaving through the documentable facts in these interviews are partial lies misdirections and wish fulfillment fantasies But when read against her fictions these truths can help us see L Engle more deeply what she wanted for herself and for her children what she believed about good and evil and what she thought was the right way and the wrong way to be a family than if she had been able to articulate the truth more directly The thirteen interviews collected here reveal an amazing feat of authorial self fashioning as L Engle transformed from novelist to children's author to Christian writer and attempted to craft a public persona that would speak to each of these different audiences in meaningful yet not painfully revealing ways
