The Historical Novel in Nineteenth-Century Europe Brian Hamnett, 2011-11-24 Even at the height of its popularity in the early nineteenth century the historical novel faced criticism at many levels After its predominance in the 1810s and 1820s writers and historians shunned it as a travesty of their respective disciplines Even so the historical novel has frequently attracted a wide ranging public right up to the present day Brian Hamnett examines key novels by authors including Scott Balzac Manzoni Dickens Eliot Flaubert Fontane Gald s and Tolstoy revealing the contradictions inherent in this form of fiction and exposing the challenges writers faced in attempting to represent a reality that linked past and present He argues that the historical novel in the nineteenth century was a common European phenomenon with considerable interconnection of themes and periods Accordingly the book ranges from the British Isles and France through the Germanic territories Italy and Spain to the Russian Empire identifying the different objectives and phases of the historical novel Although historical novels did appear in the two previous centuries the form came to maturity in the nineteenth century a consequence of the developing nature of history as a discipline distinct from literature and philosophy and the increasing primacy of the novel for writers and the reading public Yet the frontiers between history and literature remained blurred and the two disciplines continued to influence one another as each sought a faithful representation of human experience

Morgenblatt für gebildete stände, 1824 **Deutsches anonymllexikon ...** Michael Holzmann, Hanns Bohatta, 1928 **Scott's Shadow** Ian Duncan, 2016-08-02 Scott's Shadow is the first comprehensive account of the flowering of Scottish fiction between 1802 and 1832 when post Enlightenment Edinburgh rivaled London as a center for literary and cultural innovation Ian Duncan shows how Walter Scott became the central figure in these developments and how he helped redefine the novel as the principal modern genre for the representation of national historical life Duncan traces the rise of a cultural nationalist ideology and the ascendancy of Scott's Waverley novels in the years after Waterloo He argues that the key to Scott's achievement and its unprecedented impact was the actualization of a realist aesthetic of fiction one that offered a socializing model of the imagination as first theorized by Scottish philosopher and historian David Hume This aesthetic Duncan contends provides a powerful novelistic alternative to the Kantian Coleridgean account of the imagination that has been taken as normative for British Romanticism since the early twentieth century Duncan goes on to examine in detail how other Scottish writers inspired by Scott's innovations James Hogg and John Galt in particular produced in their own novels and tales rival accounts of regional national and imperial history Scott's Shadow illuminates a major but neglected episode of British Romanticism as well as a pivotal moment in the history and development of the novel
