A Work Furnished with Variety of Matter, Relating to Honor and Noblesse Elias Ashmole,1672 *Rings for the Finger, from the Earliest Known Times to the Present...* George F. Kunz,1917 *A Film-Philosophy of Ecology and Enlightenment* Rupert Read,2018-10-17 Inspired by the philosophy of Wittgenstein and his idea that the purpose of real philosophical thinking is not to discover something new but to show in a strikingly different light what is already there this book provides philosophical readings of a number of arthouse and Hollywood films Each chapter contains a discussion of two films one explored in greater detail and the other analyzed as a minor key which reveals the possibility for the book's ideas to be applied across different films registers and genres The readings are not only interpretive but they offer a way of thinking and feeling about with and through films which is genuinely transformative Rupert Read's main contention is that certain films can bring about a change in how we see the world He advocates an ecological approach to film philosophy analysis arguing that film can re shape the viewer's relationship to the environment and other living beings The transformative wake up call of these films is enlightenment in its true sense The result is a book that ambitiously aims to change though film how we think of ourselves and our place in the world at a time when such change is more needed than ever before **Algebra and Geometry** R.
