C. Thompson, 2007 This is an investigative journalism in the mould of Carl Bernstein and Bob Woodward This is an incredible story of shadowy CIA kidnappings followed by imprisonment and torture The secret may be out but the horror remains in this original expose of extraordinary rendition This is the incredible story of how the CIA's darkest secret of the War on Terror the extraordinary rendition programme was exposed It's no longer a secret since 9 11 the CIA has quietly kidnapped more than a hundred people and detained them at prisons throughout the world Often the detainees are tortured or disappear entirely Now infamous the extraordinary rendition programme is a key part of the largest clandestine operation since the end of the Cold War In this shocking book an award winning investigative journalist and a military geographer explore the programme in journeys

around the world to suburban Massachusetts to profile a CIA front company supplying the agency with planes to North Carolina to track down the pilots to the San Francisco suburbs to study with a planespotter who monitors the CIA's movements and to Afghanistan where they visit the notorious Salt Pit prison and interview released Afghan detainees The kidnappings have not stopped On the contrary the rendition programme has been formalised colluding with the military when necessary and constantly changing its cover to remain hidden from sight This is a chilling looking at the logistics of torture which shows how far Bush is prepared to go in the war on terror *Propaganda, Communication and Empire* Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state's role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9/11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section represent specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and communication studies US foreign policy and international relations *Terrorism* Robert A.
