Existential America George Cotkin, 2003-01-24 As Cotkin shows not only did Americans readily take to existentialism but they were already heirs to a rich tradition of thinkers from Jonathan Edwards and Herman Melville to Emily Dickinson and William James who had wrestled with the problems of existence and the contingency of the world long before Sartre and his colleagues After introducing the concept of an American existential tradition Cotkin examines how formal existentialism first arrived in America in the 1930s through discussion of Kierkegaard and the early vogue among New York intellectuals for the works of Sartre Beauvoir and Camus

Cosmopolitan visions Terry A. Cooney traces the evolution of the Partisan Review often considered to be the most influential little magazine ever published in America during its formative years giving a lucid and dispassionate view of the magazine and its luminaries who played a leading role in shaping the public discourse of American intellectuals Included are Lionel Trilling Philip Rahv William Phillips Dwight Macdonald F. W. Dupee Mary McCarthy Sidney Hook Harold Rosenberg and Delmore Schwartz among others An excellent book which works at each level on which it operates It succeeds as a straightforward narrative account of the Partisan Review in the 1930s and 1940s The magazine's leading voices William Phillips Philip Rahv Dwight MacDonald Lionel Trilling and all the rest receive their due Among the themes that engage Cooney are how they dealt with modernism in culture and radicalism in politics each on its own and in combination how Jewishness played a complex and fascinating role in many of the thinkers' lives and especially how cosmopolitanism best explains what the Partisan Review was all about Robert Booth Fowler *Journal of American History*
