Rise Of Great Britain And Russia 1688 1725:

The Great Powers and Global Struggle, 1490-1990 Karen A. Rasler, William R. Thompson, 2021-10-21 In *The Great Powers and Global Struggle* Karen A Rasler and William R Thompson focus on two themes the rise and fall as well as the relative decline of major world powers over the past five hundred years and the way in which these processes have set the stage for the outbreak of global war Their interdisciplinary approach encompasses political science economics sociology geography and history The most significant wars occur when regional leaders historically in Western Europe challenge global leaders By studying the wars of Napoleon Louis XIV Phillip II and the Italian Indian Ocean wars of the sixteenth century through World Wars I and II to the present the authors challenge the long held idea that prosperity leads to over consumption and underinvestment and thus decline a theory traceable to ancient times that remains the principal explanation for global decline today Arguments about global structural change and its implications abound but rarely is the abstract translated into concrete historical terms with emphases on specific actors and empirical documentation Rasler and Thompson reinterpret the past five hundred years of major power warfare and provide extensive tests of the eighteen generalizations critical to their argument They conclude that those who argue that global war and repositioning are no longer a concern among the major powers lack critical understanding of the behavior that contributes to such conflict Die "Military Revolution" und der deutsche Territorialstaat unter besonderer Berücksichtigung Brandenburg-Preußens und Sachsens Thomas Wollschläger, 2004 Das Konzept der Military Revolution spielt seit den 1950er Jahren eine Schlüsselrolle in der europäischen Historiographie Der Autor untersucht mit seiner Arbeit am Beispiel Brandenburg Preußens und Sachsens erstmals ob Kernbereiche dieses Konzepts auch auf die deutschen Staaten der Frühen Neuzeit übertragbar sind Er weist nach dass das bisher für Westeuropa vorliegende Konzept der Military Revolution unbedingt erweitert werden muss um auf deutsche Staaten angewandt werden zu können Erarbeitet wird ein Kriterienraster welches unterschiedliche Staaten im Rahmen einer Military Revolution einzuordnen vermag und sowohl die bisher erarbeiteten Elemente als auch die neu herausgestellten Tendenzen in einer gemeinsamen Perspektive überblicken hilft **The Revolution of Peter the Great** James Cracraft, 2006-03-15 Russians learned how to build and sail warships train supply and command a modern army operate a new style bureaucracy conduct diplomacy on a par with the other European states apply modern science and conceptualize the new governing system **The Rise of Great Britain and Russia** J.S. creation of specific policies and a politicized public had to seek new venues in which to debate publicly state economic policies This argument is based upon a database created from the Council of Commerce records and a discursive analysis of the language used in the communication network and in two specific examples French trade policy towards the Dutch during the War of Spanish Succession and the communicative practices and economic conflicts of the Ni mes hosiery guild **The New Beacon** ,1976 *Portuguese Studies Review* ,2001 The Journal of Military History ,2000 *Encounter* Stephen Spender,Irving Kristol,1979
