

THE RISE OF THE SPANISH EMPIRE IN THE OLD WORLD AND IN THE NEW

By **ROGER INGELSON MERRIMAN**
Professor of History in Harvard University

Volume IV—Philip the Prudent

In this volume Professor Merriman carries the tale of "The Rise of the Spanish Empire" to its impending culmination, and traces the causes and beginnings of its decline.

Philip the Prudent, the last sovereign whose dominion extended the globe, was also the secular protagonist of the Counter-Reformation. An ardent lover of justice, with the most explicit ideas of the duties and responsibilities of kingship, he labored manfully to drive everything himself from behind and the Ecclesiastical. Yet he was an conservative in his political views, so distrustful of his ministers and generals, so slow to make up his mind, and so ponderous in action, that he was unable to cope with the new forces and ideas that were springing up around him, and again and the Spanish Empire paid the penalty for his failure.

The volume comprises two parts: The Spanish Empire at Its Greatest, Territorial Extent and The Fall of the Tide. The former treats of Philip's character and policy, his wars with former friends of Philip's character and policy, his wars with the Infidel, the extension of Spain's possessions in America and the Philippines, the beginnings of the revolt in the Netherlands, and finally the absorption of Portugal and her colonies. The latter takes up Spain's internal administration and finance, the amazing career of Antonio Peres and the contest over the Illection of Aragon, the wars in France and the Netherlands, and the defeat of the Spanish Armada.

More than two hundred illustrations and other objects of interest are included in this volume. The illustrations include special maps, geographical tables, and a facsimile.
