Rising from the Ruins Garth Gillan, 1998 Rising from the Ruins is an assessment of reason being and the good in a world fractured by the passage of the Shoah or Holocaust The historical character of evil that appeared in the Shoah damaged the relationship of human existence to being creating a time when the confidence of reason to possess the truth no longer exists Rising from the Ruins relocates the relationships among being reason and the good in terms of a metaphysics ethics and politics that derive from faith and heteronomy Rather than another attempt to document the horror of the Shoah this book chronicles what the world is like for those who have read and listened to previous accounts Rising from the Ruins doesn't celebrate surviving the Holocaust instead it speaks of a rationality that sees truth and the good through the eyes of suffering and the silence of death Such a rationality Gillan suggests looks more like faith and it takes its place among the sweat and tears of common men and women who are dedicated to building a human city populated with children the poor the sick and the aged

*Human Rights for Refugees and Other Marginalised Persons* Devorah Wainer, 2023-08-07 This book provides a new framework for conducting qualitative research into Asylum Seeking Refugees based on Emmanuel Levinas ethic of the face to face encounter The methodology originates in the term Midrash a narrative form that exposes investigates searches It reconceptualises encounters between Asylum Seeking Refugees and those researching their experiences in a manner that moves beyond the possibility of Othering and the removal of voice that can characterise research into refugees This methodology allows a complex and rich multidimensional text with heterogeneity of voices experiences and subjects As a phenomenological method of research the internal phenomena of the researcher feeling intuition and personal perception are legitimate sites of knowledge and understanding and are not considered separate from the external objectively observable world While the researcher is not researching herself she is also not separate from the research field and data The Midrash methodology is an honest and explicit method of research designed to reinvigorate the passion of academics and researchers
