Rising Tide Of Cultural Pluralism:

The Rising Tide of Cultural Pluralism Crawford Young, 1993 Two decades after the publication of his prize winning book *The Politics of Cultural Pluralism* Crawford Young and a distinguished panel of contributors assess the changing impact of cultural pluralism on political processes around the world specifically in the former Soviet Union China United States India Ethiopia and Guatemala The result is an arresting look at the dissolution of the nation state system as we have known it Crawford Young opens with an overview of the dramatic rise in the political significance of cultural pluralism and of scholars changing understanding of what drives and shapes ethnic identification Mark Beissinger brilliantly explains the demise of the last great empire state the USSR while Edward Friedman notes growing challenges to the apparent cultural homogeneity of China Nader Entessar suggests intriguing contrasts in Azeri identity politics in Iran and the ex USSR Ronald Schmidt and Noel Kent explore the language and racial dimensions of the rising multicultural currents in the United States Douglas Spitz shows the extent of the decline of the old secular vision of India of the independence generation Alan LeBaron traces the recent emergence of an assertive Mayan identity among a submerged populace in Guatemala long thought to be destined for Ladinoization A case study of the diversity and uncertain future of Ethiopia dramatically emerges from four contrasting contributions Tekle Woldemikael looks at the potential cultural tensions in Eritrea Solomon Gashaw offers a central Ethiopian nationalist perspective Herbert Lewis reflects the perspectives of a restless and disaffected periphery and James Quirin provides an arresting explanation of the construction of identity amongst the Beta Israel Ethiopian Jews Virginia Sapiro steps back from specific regions offering an original analysis of the interaction between cultural pluralism and gender

the links such acts have to personal identities and how they challenge the character or very existence of the state Building upon the anthropological premises of holism and cross cultural comparison this volume shows how violent challenges to existing states should be conceptualized as layered problems with multiple kinds of causes It not only goes beyond the ancient hatreds explanation but shows the inadequacy of the concept of ethnic violence and of theories which treat interests and identities as separate sometimes opposed variables Gesellschaften im Umbruch Deutsche Gesellschaft für Soziologie.
