Young People's Daily Mobilities in Sub-Saharan Africa Gina Porter, Kate Hampshire, Albert Abane, Alister Munthali, Elsbeth Robson, Mac Mashiri, 2016-11-26 This book explores the daily mobilities and immobilities of children and young people in sub Saharan Africa The authors draw on findings from rural and urban field research extending over many years culminating in a 24 site study across three African countries Ghana Malawi and South Africa Wider reflections on gender relationality the politics of mobility and field methodology frame the study By bringing together diverse strands of a complex daily mobilities picture from journeys for education work play leisure and health to associated experiences of different transport modes road safety and the virtual mobility now afforded by mobile phones the book helps fill a knowledge gap with crucial significance for development policy and practice **The 1981 Bicycle Resource Guide** David J. Luebbbers, 1981 *The Ride to Modernity* G. B. Norcliffe, 2001-01-01 An examination how the bicycle as a symbol of modernity and social status fits into the larger picture of change and progress in a period of dramatic economic social and technological flux **Journal of Reading**, 1982 Riding High Ross Robert Olney, 1981-01-01 Describes bicycle types and tips safety maintenance bicycle sports and future bikes **Hogs, Blogs, Leathers and Lattes** William E. Thompson, 2012-09-18 This book combines more than 45

years of the author's riding experiences with data collected over five years of systematic observation and extensive ethnographic interviews with over 200 male and female riders. Much has been written about hardcore bikers but there has been little scholarly research on the much larger segment of the population more aptly called motorcycle enthusiasts. This book focuses on them: the hard working plumbers, truck drivers and other blue collar workers as well as the white collar executives, doctors and other professionals who are mostly married, have mortgages, pay their bills, obey the law and on weekends and holidays participate in a favorite pastime: riding motorcycles. *Harper's Young People*, 1884 Pedal It! Michelle Mulder, 2013-04-01 Pedal It! celebrates the humble bicycle from the very first boneshakers to the sleek racing bikes of today from handlebars to spokes to gear sprockets and shows you why and how bikes can make the world a better place. Not only can bikes be used to power computers and generators, they can also reduce pollution, promote wellness and get a package across a crowded city fast. Informative but not didactic, Pedal It! encourages young readers to be part of the joy of cycling. *Round the world on a wheel, the narrative of a bicycle ride* John Foster Fraser, 1899 *Home and School Reading and Study Guides*, 1996 *Riding High* Ross Robert Olney, 1981 Describes bicycle types and tips, safety, maintenance, bicycle sports and future bikes. **Bike Lanes Are White Lanes** Melody L. Hoffmann, 2016-07-01 The number of bicyclists is increasing in the United States, especially among the working class and people of color. In contrast to the demographics of bicyclists in the United States, advocacy for bicycling has focused mainly on the interests of white, upwardly mobile bicyclists, leading to neighborhood conflicts and accusations of racist planning. In *Bike Lanes Are White Lanes*, scholar Melody L. Hoffmann argues that the bicycle has varied cultural meaning as a rolling signifier. That is, the bicycle's meaning changes in different spaces with different people and in different cultures. The rolling signification of the bicycle contributes to building community, influences gentrifying urban planning and upholds systemic race and class barriers. In this study of three prominent U.S. cities: Milwaukee, Portland and Minneapolis, Hoffmann examines how the burgeoning popularity of urban bicycling is trailed by systemic issues of racism, classism and displacement. From a pro-cycling perspective, *Bike Lanes Are White Lanes* highlights many problematic aspects of urban bicycling culture and its advocacy as well as positive examples of people trying earnestly to bring their community together through bicycling. The Wheel and Cycling Trade Review, 1888 **The Chautauquan** Theodore L. Flood, Frank Chapin Bray, 1897 The New Book of Knowledge Donna M. Lusardi, Rosemarie Kent, 2002 An illustrated encyclopedia with articles on history, literature, art and music, geography, mathematics, science, sports and other topics. Some articles include activities, games or experiments. **The Chautauquan**, 1888
