Riding Long Distance:

America's Long Distance Challenge II Karen Bumgarner, 2013-03-13 Karen Bumgarner's America's Long Distance Challenge fills a long overdue need within the sport of distance riding. It makes it clear that being a successful endurance competitor is more complex than simply running your horse as hard as possible. She does an excellent job of showing that the proper care, conditioning, and concern for the horse is the hallmark of the good competitor and the sport itself. Kerry J. Ridgeway DVM, past Chairman of the AERC Veterinary Advisory Board.

Ultra-Distance Cycling Simon Jobson, Dominic Irvine, 2017-04-06 This expert guide to competitive ultra distance cycling is all riders need to cycle a very long way fast. Ultra distance events are among some of the greatest challenges a cyclist can face with riders spending hundreds of miles in the saddle over a 24 hour period battling the elements and overcoming both physical and mental hardships. What was once elite is now commonplace and today thousands of dedicated riders cycle up to and over 100 miles on ultra distance rides every week. To add to this the increasing profile of major events such as Race Across America, RAAM, Race Across the Alps, RATA, and Ultracycling Dolomites means that many more riders are being drawn to the challenge of non stop endurance cycling. Ultra Distance Cycling is the first mainstream book to offer practical, authoritative guidance to cyclists looking to step up to long distance endurance events as well as expert advice to established competitors seeking a competitive advantage. Written by a leading sports scientist and a record breaking ultra distance cyclist, this unique book is both science and experience based, offering practical and performance enhancing insights on a wide range of areas. These include physical training and mental preparation, guidance on your support network, advice on PR and sponsorship as well as all important sections on equipment, nutrition, and the major ultra distance cycling events.
